No. 159. Read the following Proceedings of the Board of Revenue, dated 13th January 1863:—

Read Proceedings of the Madras Government dated 5th May 1862, No. 976.

(In Cons. 6th May 1862, No. 2,697.)

1. In paragraph 20 of the above order the Government desired the Board to reconsider carefully and report on any proposed abolition of Pans still unsanctioned by them, and especially on the restriction of sales to particular stations. The Board observe that in submitting to Government from time to time the reports on the Salt administration of the different Districts they have reviewed the proposal as to pans to be abolished, and to be newly opened; and orders have been passed by Government sanctioning these measures, except in the case of Tanjore. The proposition made in respect to this District has not yet been sanctioned. In their Proceedings dated 29th October 1862, No. 2,308, the Board proposed the abolition of eight sets of pans in Tanjore, but the Collector has since suggested the retention of manufacture at two stations in the Adrampatam Division, one of them being amalgamated with some other station in the same Division. This has been approved of by the Board, and recommended to Government in their Proceedings dated 13th January 1863. Mr. Pelly has provided the necessary establishment for these stations in his new scale.

2. The Godavery District alone now remains to be reported on to Government. In his letter to Mr. Pelly, dated 25th July 1862, the Collector recommended the abolition of the manufacture of Salt in the villages noted in the margin, as very little Salt is made in the pans belonging to them, and what is manufactured is generally of very inferior quality. Mr. Purvis also stated that the quantity of salt hitherto made in these pans can without difficulty be made for the future at the pans proposed to be retained. This letter having been transferred to the Board for disposal, they have in their Proceedings dated 29th August 1862, No. 5,769, expressed their concurrence in opinion with the Collector, and they now recommend that the sanction of Government be granted for abolishing the pans named by Mr. Purvis.

3. Government having in their Order dated 7th January 1863, sanctioned the proposal for raising a bund across the upper portion of the Pulicat lake, the Board observe that the station of Kattoonapully which was ordered to be opened some time ago for utilizing spontaneous Salt will not be necessary, as the formation of the bund is designed to prevent the formation of the Salt. Mr. Pelly has however requested the Collector of Nellore to report whether the station in question can be abolished; and his reply when received will be submitted to Government. The station of Kattoonapully has been for the present allowed to remain in the list.

4. In Malabar the Ponany depôt was formerly proposed to be transferred to Beypore, but the Collector having in his letter to Mr. Pelly represented the necessity of retaining that station also in consequence of the long distance between the two places the Board have thought it proper to allow it to remain.

5. The Board now resolve to submit to Government a list showing the names of the divisions and stations as finally settled by them with reference to the various changes proposed from time to time. The changes in the Godavery and Tanjore Districts alone still require to be sanctioned by Government. The arrangement of the divisions and stations as shown in the accompanying list has been carefully made in communication with Mr. Pelly, and it is for the places so settled that the necessary establishments have been provided by that gentleman. Stations at which sales will accommodate the public have been retained for both purposes of manufacture and sale. Some of the new stations proposed have already been opened, and if the list now submitted be approved by Government, the Collectors will be instructed to arrange the divisions and stations in their Districts as now finally settled by the Board.

No. 160. ORDER THEREON, 10th February 1863, No. 301.

1. The list of Salt stations submitted by the Board is approved.
2. The Board are requested to submit a Statement showing the manufacture and sales (Home and Inland) of the Godavery District during the last five years.
3. It would be convenient to have a sketch map of the coasts of this Presidency, showing the position of the several sets of Pans and Depôts now sanctioned and the roads therefrom. The Chief Engineer in communication with the Revenue Board is requested to have a map prepared accordingly.

*Proceedings of the Board of Revenue,
dated 13th January 1863.*

*Read Proceedings of the
Madras Government dated 5th May 1862 No. 976.
(Incons. 6th May 1862 No. 2697.)*

*In Para 20 of the above order
the Government desired the Board to reconsider care-
fully and report on any proposed abolition of
pans still unsanctioned by them, and especially
on the restriction of sales to particular stations.
The Board observe that in submitting to Govern-
ment from time to time the reports on the
Salt administration of the different districts
they have reviewed the proposal as to Pans to
be abolished, and to be newly opened, and as
orders have been passed by Government sanctioning
these measures, except in the case of Tanjore.
The proposition made in respect to this District
has not yet been sanctioned. In their Proceedings
dated 29th October 1862 No. 2308, the Board
proposed the abolition of eight sets of pans
in Tanjore, but the Collector has since suggested
the retention of manufacture at two stations
in*

in the Subrampatam Division one of them being amalgamated with some other station in the same Division. This has been approved of by the Board and recommended to Government in their Proceedings dated 13th January 1863. Mr. Pelly has provided the necessary Establishment for these stations in his new scale.

2. The Godavery District alone now remains to be reported on to Government. In his letter to Mr. Pelly dated 25th July 1862, the Collector recommended the abolition of the manufacture of Salt in the Villages noted in the margin, as very little Salt is made in the Pans belonging to them, and what is manufactured is generally of very inferior quality. Mr. Purvis also stated that the quantity of Salt hitherto made in these Pans can without difficulty be made for the future at the pans proposed to be retained. This letter having been transferred to the Board for disposal, they have in their Proceedings dated 29th August 1862 No. 5769 expressed their concurrence in opinion with the Collector, and they now recommend that the sanction of Government be granted for abolishing the
