Proceedings of the Madras Government, Revenue Department, 30th March 1863.

No. 300. Read the following Proceedings of the Board of Revenue, dated 18th March 1863 :—

Read the following letter from G. A. BALLARD, Esq., Collector of Malabar, to W. HUDLESTON, Esq., Secretary to the Board of Revenue, dated Calicut, 12th March 1863, No. 47.

SIR,

1. I have the honor to inform you that various circumstances have delayed the completion of the store lately purchased as a Salt Golla from the Railway Company, and the erection of a second store at Beypore.

2. A quantity of Salt is consequently now without effectual cover, and more is immediately expected.

3. Under these circumstances, I have directed the immediate erection of a temporary store capable of holding about 300 Garces. This will keep Salt well through the monsoon, and indeed for several years if necessary. But I hope that a suitable plan will be decided on, and a second permanent store erected after the monsoon.

4. The temporary shed will cost about Rupees 500;* I beg that sanction may be obtained for this sum. The work is already in progress by my Department, but the bill can be submitted through the Department Public Works if necessary.

* May, I believe, be met from the Reserve Fund of the current year of the Department Public Works.

5. I take this opportunity of informing the Board that I have made a somewhat different arrangement as to the ground allotted for the Government use by the Railway Company, which will give great facilities to our local operations.

The Railway Officers have been good enough to give a piece of ground, south of the present store, for the erection of a second store, and thus the space between the present store and the water will be left open for landing Salt, weighing, &c., before storing, for which hardly sufficient space was previously allowed.

Vide sketch enclosed.

6. I am erecting the temporary store south again of the site of the proposed second permanent store, so that our operations can go on without interruption until we are in a position to abandon the temporary store altogether.

7. The Canara stores alluded to are very much smaller and, in my opinion, *not* fitted for our requirements. I am in communication with the District Engineer on the subject, and I hope a good plan will be submitted shortly.

---

1. Ordered to be submitted to Government with the Board's request that the cost of the temporary shed may be sanctioned from the fund at the disposal of the Department Public Works, unless it be considered more properly a charge against the special Salt provision in the Budget, in which case there are ample savings to meet the charge.

2. The Board would be glad to learn the nature of the Collector's objections to the Canara description of Salt Kotar, which can be built of any size needed.
