*Proceedings of the Madras Government, Revenue Department,
9th April 1863.*

No. 47. Read the following Proceedings of the Board of Revenue, dated 13th March 1863, No. 1,493:—

Read again Proceedings of the Madras Government, dated 20th October 1862, No. 2,240.

Read also Proceedings of the Madras Government, dated 12th November 1862, No. 2,391.

1. In the above Proceedings, Government requested explanation regarding certain discrepancies noticed by them in the market rates given for Cotton and Indigo in the Statements for the months of August and September 1862.

2. The Board, in their Proceedings dated 28th October 1862, No. 7,134, called upon the several Collectors to institute careful inquiries as to the ruling prices of Cotton and Indigo in the principal marts of their District, and to submit a special Statement with brief explanatory remarks regarding the discrepancies. The replies of the Collectors have at last been received, and it would appear from them that the differences noticed by Government in the prices of Cotton, were simply owing to some of the Collectors having reference to cleaned Cotton, and others to seed Cotton, as surmised by the Board in paragraph 3 of their Proceedings above alluded to.

3. With reference to Indigo the difference is attributable to inadvertent entries in some of the values, and to the rates given by the Collectors of Madura and Tinnevelly being for very inferior Indigo, which is used for washing purposes.

4. The prices of the articles in question as now corrected are given in the following Statement for the information of Government, though this information cannot be of much use at this late period:—
