REPORT OF THE
SUB COMMITTEE OF THE
WORKING OF THE
MUNICIPAL ASSOCIATION
OF VIZIANAGRAM FOR
1862-63.

—•—

HONORARY PRESIDENT.

SRI VIZIARAM GAJPATTIRAZ MAHARAJ.

CHAIRMAN

W. G. OWEN, Esq.

VICE CHAIRMAN.

SRI PENUMATSA JAGANADHARAJ.

MEMBERS.

Dasiraj Narsaiya Pantulu.
Garuzada Kondaiya Pantulu.
Haji Shariff Sahib.
Mr. George Johns.
Lingam Lakshmajji Pantulu.
Pandita Hanumatarow Pantulu.
Silam Venkatadri Naidu.

1. The income of the Association during the year under review from House and Cart tax, and other sundry sources, is exhibited in the Statement of demand and collection No. 1 hereto appended.

2. The following is an Abstract of the Account Current No. 2 prepared with reference to the Statement of Demand and Collection.

	Rs.	A.	P.
Balance of last years account.	874	10	10
Amount granted by the Honorary Govt. being the equivalent of the Sum collected nere in last year. }	2842	12	9
Amount collected in this year in- cluding house tax. }	5457	12	4
Total...	9175	3	11
Deduct amount expended on Pub- lic Works &c. }	7064	6	6
Balance...	2110	13	5

3. The roads which were commenced with in last year, but which were left incomplected up to the end of April 1862 have not only been finished, but six other roads have also been made in this year. Some portion of the roads as were damaged by rains as well as by Bullocks Carts constantly traversing over them have all been well repaired, and drains and tunnels have also been built.

4. Several Streets have been furnished with roads, and considering it highly necessary for the comfort and health of the people, to keep them free of nuisance

the establishment of scavengers has been increased, Bandies also have been employed, and a Serjeant is appointed to superintend the cleansing of the Streets.

5. Enabled by the grant made by the Government we have entered upon the execution of the project suggested in Para 13 of the Report for 1861. With this amount and the surplus money above referred to, we have first commenced constructing stone drains on both sides of the main road running from the Pagoda of Sri Jagannadhaswamy at Santapeta up to the bank of "Aiyakonaru" in the Kusba which measures nearly 2000 yards. The foundations are laid with stone and Chunam over which the drains are built with masoury work. This is the principal road by which almost all the people of the place, repair to that famous tank for water, and this is not only supplied with such substantial drains but is also being made into a Pucca road, being metalled with stone and gravel sufficiently. Three fourths of the road has been finished. We are happy to say that the Government grant alluded to, has contributed much towards the accomplishment of such important works.

6. The roads in the Streets which go by the names of Kirana kotta Vidhi, Kukutalavari Vidhi, at Santapeta; Gundalavari Vidhi, Gurarayacharulu Vidhi, Jaganadharaj gari Vidhi, and Venugopalrow gari Vidhi in the Kuspa, are also being supplied with drains built of stone. The work is progressing rapidly.

7. The old tank "Wooracherru" was filled in with earth, and converted into a place fit for buildings, by enclosing it with an embankment two yards high and four broad, and making other improvements therein. In this year a tiled house has been built, and foundations laid for more houses to be built on the ground. The rest will be done in the course of the next year.

8. It had been customary for certain lands to be irrigated by the said "Woorachervu" but the Proprietors of those lands having appeared and applied for other means of irrigation to be provided for them, the Sub-Committee considered over the matter and caused two small tanks to be made near the southern bank of Aiyakonaru for them.

9. The Association of Vizianagram did not in the last year possess the advice of any European Gentleman in the management of its affairs, but we are glad to observe that in this year it has had such, under the arrangement very kindly made by Mr. Carmichael the Acting Agent to the Governor, Capt. G. C. Finlay for some time, and Major Owen now, in consequence of which the affairs of the Association have been transacted in a very great interest in the improvement of the Town.

10. There is an extensive tract of Inam land called "Munsheepolam" situated in the midst of the Town, with regard to which it was proposed to give the owner another land which the Maharajah was kind enough to offer in lieu, and to build in the former a Market—Major Owen having acquiesced in the project, we have set to work at it at once. The place has been marked off for the different departments of the Market, and the whole of the people are delighted at the prospect of seeing all the Bazar to meet at one place, which would of course add much to their own convenience, while it reflects much credit on their town.

11. The house tax was introduced this year according to Gaddies, i. e. for every 12 square yards of house, 2 annas were charged. This system is agreeable to the people, and the demand thus raised is Rs. 1074-13.

12. Having had very heavy showers of rain this year, several roads have had to be repaired—several tunnels have also been constructed wherever they were found to be necessary. It is with no little satis-

4.
faction we record that all that has been done has contributed much to the health and comfort of the people.

13. We have to repeat again that we owe much to His Highness the Maharajah. The tax paid by him for his bandies forms a large portion of the money collected under this head.

**REPORT OF THE
SUB COMMITTEE OF THE
VIZAGAPATAM MUNICIPAL ASSOCIATION**

FOR THE YEAR ENDING 30th APRIL 1863.

1. The Sub Committee have much pleasure in submitting their Report of the working of this Association during the past year,—being the fifth of its existence, for the information of the general committee and the Public.
2. The income of the Association is derived from a light tax upon houses, bandies entering the market and passage money collected at the Ferries. The annexed table (A) shews the demand collection, and balance, current and arrears during the above period of the several sources mentioned.

Town.

3. An estimate for the construction of stone drains measuring 12764 yards throughout the town, to carry off the sewage at a cost of Rs. 4860-12-0 was passed during the year: of this 1036 yards of small and 773 yards of large V. drains have been completed at a cost of Rs. 1291.

Three tunnels of a larger capacity were constructed across the main road in the place of the previously existing ones which were often choked up after a heavy fall of rain from want of sufficient water way. Another

tunnel in Chengala Rayudupett has been constructed by which the drainage of four different roads is easily carried away. Two cisterns have been erected in convenient places so as to flush the drains every morning and to wash away any accumulation of stagnant matter and additional cisterns will be erected as soon as the drains of the bylanes are completed.

4. The increase of work has obliged the Association to entertain two more European Superintendents to each of whom a division is entrusted; dividing the whole town into three divisions.

5. Several localities in the heart of the town have been freed from prickly pear at a cost of Rs. 112-7-6.

6. A narrow lane leading from Cottapett to Chengal-rayudipett was widened by removing a few huts which encroached upon the road and compensation was made to the owners of the huts amounting to Rs. 144-8-9.

The road is thus made straighter and shorter between the town and pettas.

7. The building formerly occupied as a Municipal and Reading room was on rent, but the same not being sufficiently central it became necessary to erect a building on the main road facing the Post Office so as to be convenient to the Public. Application was accordingly made to the Government to place at the Association's disposal the old Mulky Post Office building which was generously presented to them. This building was pulled down and the present commodious one erected at a cost of Rs. 2903-1-9. The Association has furnished the building with wall shades, a clock, punkahs, and a due proportion of furniture; and the Committee records with much pleasure and satisfaction that the rooms are now being visited by large numbers of the higher and middle classes of the native community.

8. Estimates for repairing the causeway road, making roads in different parts of the Town, sinking wells,

and constructing drains, amounting to Rs. 10650, have been passed by the Committee, and advances have been made for their immediate execution. The liberal grant of Rs. 11,003-9-6 made by Government, for which the Committee express their grateful thanks, together with the resources of the Association, has during the past year enabled the Association to carry out vast improvements for the cleanliness and drainage of the town.

Ferries.

9. Great laxity of duty was observed in March last by the Superintendents of the ferries, although the Association maintained a large establishment of Servants: it was considered advisable to hand the ferry over on contract, working on the principles laid down by the Association in the report of 1860; the Committee record with pleasure that no complaints have reached them of any mismanagement or oppression by the contractors and they are therefore inclined to believe that the change is agreeable to the people.

The following table shews the ferry rates now in vogue.

Man, woman, or child without load	...	..	0	0	1
Do. Do. with load	..	..	0	0	2
Palaky or dooly with bearers...	...	...	0	4	0
Bullocks laden or unladen ..	...	..	0	0	6
Saddle horse	...	..	0	2	0
Camels	...	..	0	4	0
Sheep, dogs, goats, &c. each...	..	..	0	0	1
Bandies laden or unladen	...	...	0	2	0

Market.

10. The rates of the market fees were also altered during the year under review, increasing the income by 75 Rupees a month.

The rates established are as follow :

	Rs.	A.	P.
Grain bandies, ...	0	2	0
Timber do.	0	1	6
Straw, charcoal, travelling and empty bandies	0	1	0
Bullocks laden or unladen	0	0	4

The Government in their Proceedings of 11th July 1862. No. 15.13 have been pleased to state that their aid to the Association will cease as soon as the association is self supporting.

The following are the works which the Association consider necessary to the completion of the improvements of this great Town; after the construction of which the Association hope that the Institution will become self supporting.

Iron Bridge on screw piles over } Estimated to cost	
the River at Vizagapatam. }	80,000
Road by beach from Fort to Waltair.	5,000
Other improvements in the town.	15,000
	100,000

The Association respectfully solicits the aid of Government for the year 1863-64, to the extent of Rs. 12081-4-10 being the sum raised in the town for Municipal purposes by House tax, Market tax, and Ferries during the period under review.

The Account Current of the Association marked B. is hereto attached.

Poor House.

11 The Sub-Committee have much pleasure in reporting the Establishment of a Poor House in the Town. The number of Lepers and others parading the Streets and importuning passengers for alms, was daily growing into such a public nuisance, that at the suggestion of Mr. Carmichael our President it was resolved to establish a Poor House where all Paupers should be lodged, clothed, and fed.

In the Appendix will be found the Rules of the Institution with a list of subscriptions and donations.

The house is almost ready, but pending its completion, a temporary building has been erected. The Puckah one is to cost Rupees 2000 and will accommodate 200 paupers. The site is along side of the Civil Dispensary so that in cases of illness the inmates will have medical aid at hand.

The present number on the Roll is 21 males and 33 females including children of both sexes. The monthly subscriptions amount to Rupees 223-10-0. The average cost of feeding is Rs. 90 per month, so that the expenditure is below the income at present.

APPENDIX

COPY OF THE RULES FOR THE ESTABLISHMENT OF THE
POOR HOUSE IN THE TOWN OF VIZAGAPATAM.

- 1st. The Poor of the Town of Vizagapatam and the neighbourhood shall be fed and rice distributed to them.
- 2nd. For the present, arrangements shall be made to supply the rice &c. for this purpose by a Banian residing at Chengalaroyudupett.
- 3rd. There shall be two distinct classes of paupers to be supplied, viz, those who have no houses of their own, and who are unable to work, and those who have some place of habitation but equally poor.
- 4th. Those who are too disabled to work and have no dwelling place of their own, shall be lodged and fed on the spot twice a day; and those who have some place of their own, but who are too infirm to work, raw rice shall be given to them in sufficient quantity for two meals. The first mentioned persons shall be regarded as *indoor* paupers, and the second as *outdoor* paupers.
- 5th. A caste man shall be employed to cook for the indoor paupers.
- 6th. Those who receive raw rice shall have a ticket given to them, and each pauper shall exhibit his or her ticket each time he or she comes to receive rice. Those who come without a ticket must be able to account for its absence or forfeit their meal of rice for the day.
- 7th. Those paupers who live on the Premises shall not be allowed to leave it without permission from the

ii.

Superintendent. Those who are outdoor paupers shall not be allowed to wander in the streets to beg from house to house, and every pauper so transgressing shall be handed over to the Police for punishment.

8th. There shall be a Superintendent to live on the Premises whose business shall be to take charge of the establishment, to see the meals given, and the rice served out to the paupers daily, and that the premises are kept clean, and that no offensive matter is left in any part of the compound.

9th. Two cloths a year, and 1 cumby shall be provided for each person whether an indoor or outdoor pauper, and arrangements shall be made for their dirty cloths to be washed from time to time in the most convenient way.

10th. No nuisance shall be allowed in any part of the premises on pain of severe punishment and if such should be committed after due warning, those who so transgress shall be expelled from the Institution.

11th. All cases of bad conduct shall be duly reported by the Superintendent.

12th. All cases of sickness shall be reported to the Civil Surgeon of the Station with a view to treatment in the Civil Dispensary if deemed advisable.

13th. Relations of the paupers shall be allowed to visit the Institution once a week if they wish to do so, but no toddy, opium or other objectionable article shall be allowed to be brought by them and given to the inmates of the Institution on pain of being severely punished.

14th. A book shall be kept by the Superintendent in which shall be entered the names of indoor and outdoor paupers, and also of every new applicant for the benefit of the Institution; the admission of each person shall also be duly registered; in the like manner

16
iii.

every death and the circumstances attending it shall also be recorded.
