Proceedings of the Madras Government, Revenue Department, 13th June 1864.

No. 149. Read the following Proceedings of the Board of Revenue, dated 29th April 1864, No. 2,598.

Read the following letter from the Collector of the Godavery District, dated Cocanada, 29th March 1864, No. 77:—

1. In reference to the Order of Government No. 184, dated the 2nd ultimo, conveyed with the Board's Proceedings, No. 787 of the 5th idem, calling for further information connected with the providing of a Cutcherry for the Deputy Collector at Ellore, I have the honor to submit copy of a letter from the Assistant Engineer of that Range furnishing the particulars required.

2. It will be observed that the cost of converting the Sergeant's quarters into a Cutcherry will be Rupees 530; that of converting a part of the Barracks, Rupees 270; while the cost of building a new Cutcherry in the most eligible situation, will be Rupees 2,100. The value of the Barracks is estimated at Rupees 3,400; that of the Hospital at Rupees 2,270; and that of the Sergeant's quarters at Rupees 1,000.

3. The plan of the buildings is herewith returned.

ENCLOSURE No. 1.

From Lieutenant H. SMALLEY, R. E., Assistant Engineer, Godavery District, to H. NEWILL, Esq., Collector of the Godavery District, dated Ellore, 24th March 1864, No. 223.

1. With reference to Mr. Morris' letter, No. 30 of the 13th ultimo, I have the honor to inform you that the cost of building a Cutcherry for the Deputy Collector at Ellore, will be Rupees 2,100; of converting the Sergeant's quarters into a Cutcherry, Rupees 530; and of converting a part of the Barracks into a Cutcherry, Rupees 270. I have not thought it necessary to forward detailed Estimates and Plans on this occasion, but am ready to do so when required.

2. The Rupees 2,100 for a new building allow for three rooms, one 14 × 14 for the Deputy Collector, one 20 × 14 for the Gumashtas, and one 14 × 14 for the records surrounded by a verandah 9 feet wide.

3. The Rupees 530 allow for completing a verandah 6 feet wide round the Staff Sergeant's quarters.

4. The Rupees 270 allow for erecting three partition walls across the Barracks at any distances apart considered desirable.

5. The Barracks and Hospital are too large to be used alone for a Cutcherry; it will be better to use only a portion of either, if it be decided to use them for the purpose; but I consider the situation very unfavourable owing to its distance from the Town. There is a very eligible site for a new Cutcherry in the Fort next to the Moonsiff's Court, and I strongly advocate this decision.

6. The value of the buildings on the parade ground are approximately—Barracks, Rupees 3,400; Hospital, Rupees 2,270; and Sergeant's quarters, Rupees 1,000. I cannot ascertain exactly when they were built, but I have assumed this to be thirty-five years ago, and have allowed for depreciation accordingly. This valuation does not include the Arm Racks, &c., in the Barracks.

7. The Proceedings of Government forwarded with Mr. Morris' letter are herewith returned.

(True Copy.) (Signed) H. NEWILL, *Collector.*

ENCLOSURE No. 2.—Plan.

Submitted for the information and decision of Government, with reference to their Proceedings quoted by the Collector.

No. 150. ORDER THEREON, 13th June 1864, No. 1,008.

Miscellaneous. 1. These papers relate to the provision of an Office for the Deputy Collector of the Godavery District stationed at Ellore.

Proceedings of the Madras Government, Revenue Department, 13th June 1864.

2. The Government in their Order, dated 30th July 1863, No. 1,425, (paragraph 4), desired to know whether in lieu of the building rented for the Deputy Collector's Office at a monthly cost of 12 Rupees per mensem, one of the Military buildings at Ellore could not be converted into a Cutcherry for him. The Deputy Collector objected to this arrangement on the ground that the buildings are 1½ mile distant from the town and that the road to the town is in bad order. The late Acting Collector of the District was in favour of the Serjeant's quarters being converted into an Office for the Deputy Collector.

3. The Assistant District Engineer's report now submitted agreeably to the order of Government, dated 2nd February 1864, shows that the cost of building a new Cutcherry will be 2,100 Rupees, while that of converting the Serjeant's quarters into a Cutcherry will be Rupees 530.

4. Under all the circumstances of the case the Government resolve to allow the Deputy Collector to keep his Cutcherry within the town in the building now rented for the purpose until an Office can be built for him there, and to inform the Military Department that the buildings at Ellore are not required by the Revenue Department.
