BARRACK MASTER'S OFFICE,
FORT SAINT GEORGE, *30th Sept.* 1863.

(Signed) W. K. WORSTER, Lt. Col.,
Barrack Master.

From the Commissary General, Madras, 3rd December 1863, *No.* 224; *to the Secretary to Government, Military Department, Fort Saint George.*

In reply to your Memorandum, dated 21st November 1863, I have the honor to afford the following information regarding the Buildings used by this Department for the stowage of Commissariat Stores.

The Stores are arranged in the different Buildings as follows :—

Rooms.	
Ground Floor.	Contents.
Hospital Store-room, East...	400 Chests of Tea: a portion of this room is used as an Office for the Conductor in charge of the Hospital branch.
Room adjoining.....	800 Chests of Tea, full up to the roof.
Verandah.....	Used for packing purposes.
Arrack Shed, East.....	22 Liquor Vats: an additional space is available in this room for 2 more Vats.
Arrack Shed, West.....	24 Liquor Vats: no room for any other Vats in this Godown.
Arrack Shed, North..... ...	10 Liquor Vats: there is room for 2 more Vats in this Shed.
Detached Arrack Shed, North.....	18 Vats: there is room in this for 5 more Vats and Stands for the same.
Shed centre of yard, Vinegar Godown.	2 Vats of Vinegar, 1 large Chest full of Coopers' Tools, 3 small Casks of Vinegar, Measures, Utensils and sundry articles connected with Arrack Department.
Adjoining Shed, Alcohol and bottling Godown.	13 large Pegu Jars for Alcohol, 90 stone Jars, 20 Hogsheads of Ale and Porter tilted on horses to be bottled off.
Open Shed, Weighing Godown...	A portion of this Shed is used as an Office for Conductor in charge of Arrack Department, and place for keeping testing Apparatus. There are 12 Casks of empty Bottles, and the Bottles are washed in this Godown.
Native Tiffin-room.....	Alcohol in process of distillation kept in this room.
Empty Bottle Godown..... ...	Contains Charcoal received from distilling; no room for any thing else.

Rooms.

Ground Floor.	Contents.
Apartment, Executive Stores... ...	18 Pipes of Arrack, 160 Hogsheads of Malt Liquor, 40 Chests of bottled Beer, 30 Chests of Tea, and 20 bags of Coffee and sundries.
Apartment Bedding and General Stores.	This Godown is full of Stores of all kinds and is always quite full.
Stationery-room, West..... ...	Old Records.
Tiffin-room..... ...	Public Cattle and Dooly Corps Office.
Room adjoining, with Stores.....	208 ½ dozens of Beer in Quarts, 233 dozens of Beer in Pints, 404 Bottles of Sherry, (dozens) 180 dozens of Port, 128 dozens of Gin, 12 dozens of Brandy, and 2 dozens of Vinegar, arranged in Stands.
Do. adjoining.....	Full of Straw.
Do. do.	Contains sundry Stores.
Do. do.	Office Tiffin-room.
Detached Building.	
Shed, East of Office...	Full of Military Stores of all descriptions, quite full.
Shed, North of Office, Porter Godown.	266 Hogsheads of Malt Liquor: this Godown will hold about 200 Hogsheads more and is almost always over-crowded.
Cooperage, South.	
Open Shed with Timber.	Workshop of the Coopers, of whom there are now thirty employed.
Open Shed adjoining, with Casks.	Contains 30 Pipes, 100 Tubs and 20 Bathing Tubs.
Open Shed adjoining, with Casks, South East.	Contains 100 Arrack Pipes and a number of serviceable Hoops received from out-stations.
Working Shed, East.....	Contains 50 Kegs of sizes and 20 Arrack Pipes.
Store-room, adjoining.....	Contains 24 fifty-gallon Tubs, 50 five-gallon Tubs, 400 water-buckets, 100 horse-buckets and 30,000 Hoops.
1 Range Shed with Water Casks...	Contains 112 Water Casks and 540 dry Casks.
1 do. do. ...	Contains 221 Water Casks.
1 do do. ...	Contains 210 Water Casks.
1 Range Shed, East.....	Contains 90 dry Casks, 20 Water Casks, loose Staves 3,000, and dry Butts 10.
1 do.	Contains 59 Water Casks, and 500 serviceable Hoops, Iron.
1 Shed, centre Range.....	Contains 40 Water Casks, 2,200 head pieces and 2,000 old Iron Hoops.
1 Shed, side do.	Contains 80 Water Casks.
Granary, North Beach.	
1 Range North East, with Beer and Porter Casks.	Full, contains 108 Hogsheads of Malt Liquor.
1 Room adjoining.....	Full, 70 Hogsheads of Malt Liquor.
1 Apartment.....	Copper Pots.
Room adjoining.....	Tarpaulins, Packing Cases and sundries.
1 do.	Contains Copper measuring Pots, Pumps, Copper Scales, Brass Weights, and Tin sheets.
1 do.	Contains Harness Casks
1 do.	Contains Copper Boilers, square 9½ and 6½ Gallons.
1 do.	Boxes for Tin cases, Canisters, Bullock Bags, &c.,
1 Range for Beer and Porter Casks.	Contains 94 Hogsheads of Malt Liquor.
1 Room adjoining.....	70 Hogsheads of Malt Liquor.
1 do. do.	70 Hogsheads of Malt Liquor.
1 do. South..... ...	Full of Timber, Depôt Stores.
1 Range South, Auction-room.....	Contains unserviceable Stores at present.
1 do. Salt Provision.....	Salt Provision.
Apartment adjoining.....	Full of Coffee, Biscuit and other Provisions.
1 Range, West..... ...	320 Hogsheads of Malt Liquor.
1 Room adjoining.....	Iron-bars, Slippers, Kettles, &c.
1 Range Sloping Shed.....	260 Hogsheads of Malt Liquor.
Verandah.....	Horse Boxes, &c.
Do.	Triangle, &c.

2. In conclusion, I have the honor to inform you that there are still about 1,000 Hogsheads of Malt Liquor in the Timber Depôt, which place has been ordered to be given over as a Stamp Office, but which cannot be done until the building in the square of the Granary has been erected.

From the Superintending Engineer 4th Division, Madras, 11th April 1864, *No.* 6206; *to the Secretary to Government, Public Works Department.*

On finding the sum of Rupees 28,880 entered in the Budget for 1864-65, for constructing a new Stamp Office at the Presidency, I desired the Assistant Engineer North Range to take immediate steps, in communication with the Commissary General, for obtaining possession of the site, *viz.*, the Timber Depôt, with a view to the early collection of materials. I now learn from Lieutenant Bowen, that the Commissary General states that he cannot let him have any portion of the Timber-yard until a new Shed in the Granary for the storage of Malt Liquor has been completed.

1 *Letter, No.* 679, *dated 7th April* 1864.

You will no doubt remember that an Estimate, Rupees 2,800 for this Shed was submitted to Government in my letter, No. 1253, dated 22nd July 1863, and application for funds for its construction, was made out of the Reserve. The subject was referred to the Controller of Military Finance who reported, on the 18th September 1863, that pending the receipt of certain Plans and distribution allotments from the Barrack Master, the erection of the Shed should be stayed, a proposition in which Government concurred.

Military Department, Govt. Order, No. 3105, *28th September* 1863.
P. W. D., No. 2911, *7th October* 1863.

In paragraph 6 of my letter, No. 4357, dated 5th January 1864, embodied in Proceedings of Government, No. 48, dated 9th January 1864, I remarked that I was awaiting further orders in connection with the Shed in question, anticipating what has now arisen, *viz.*, that the Commissariat Department were not likely to give up their Timber Depôt until the Shed was constructed.

The item was entered in my Budget Lists, but was omitted by Government for the same reason, as its construction was originally stayed, *viz.*, because the Barrack Master's Report had not been received.

Vide paragraph 37, *Govt. Order, No.* 381, *dated 6th February* 1864.

It seems very desirable that we should be allowed to commence the Stamp Office on the 1st of May next, and as this depends upon the erection of the Shed, and that again rests upon the Barrack Master's Report, I trust such orders may be issued as may enable this Department to begin at once either with the Shed or the Stamp Office.

From the Assistant Engineer, Presidency, North Range, Fort Saint George, 7th April 1864, *No.* 679; *to the Superintending Engineer 4th Division*

I accordance with your Memorandum, No. 5981, dated 1st April 1864, directing me to collect Bricks for the new Stamp Office in the Commissariat Timber-yard to be commenced next month, I have to inform you that I wrote to the Commissary General, requesting him to make arrangements for handing over to this Department the site for the Office, in order that I might thereon collect the Bricks and other materials. The Commissary General now informs me that he cannot let me have any portion of the Timber-yard until a new Shed in the Granary for the storage of Malt Liquor has been completed, the Estimate for which work was forwarded to you on the 9th July 1863, and has not yet been sanctioned.

I have therefore no place whereon to collect my materials.

Referred to the Military Department, with reference to the Order in that Department, No. 3105, dated 28th September 1863.

(Signed) C. A. ORR, Colonel, R. E.,
Secy. to Govt., P. W. Dept.

13*th April* 1864.

Referred to the Commissary General for immediate report, with reference to his letter, No. 224, dated 3rd December 1863.

15*th April* 1864.

From Lieutenant Colonel E. E. Miller, Deputy Commissary General, for Commissary General, Madras, 16th April 1864, *No.* 65; *to the Secretary to Government, Military Department, Fort Saint George.*

I have the honor to acknowledge the receipt of your Memorandum, 15th April 1864, forwarding enclosures in original, for report.

2. I beg to state in reply that the conditions of the arrangement between this Department and the Superintending Engineer regarding the Timber Depôt were mentioned in the last paragraph of my letter, No. 224, 3rd December 1863, and that existing circumstances require these conditions to be adhered to.

3. The Malt Liquor for the year is now coming in: 900 Hogsheads having arrived, and stowage for some 4,000 Casks will be required. If the Timber Depôt be given up entirely, a Godown for the Liquor will have to be rented, as the entire stowage now available amounts only to about 1,900 Hogsheads.

4. I am anxious to meet the views of the Engineer Department as far as practicable, and therefore propose to give up the space between the Sheds in the Timber Depôt, provided that will suffice for the collection of materials, and immediately the Shed is ready for this Department, the entire Depôt will be given up.

5. The enclosures of your Memorandum are herewith returned.

Referred, with letter, No. 224, to the Controller of Military Accounts for early report.

18*th April* 1864.

From the Controller of Military Accounts, Fort Saint George, 2nd June 1864, *C; to the Secretary to Government, Military Department.*

I have the honor to submit the following observations with reference to your docket of the 18th April 1864, on the Commissary General's letter, No. 65, of the 16th idem.

Two enclosures, returned.

2. Two questions are involved in the correspondence under notice: the one the transfer of the Commissariat Timber-yard on the North Beach to the Civil Department for a Stamp Office, and the other the erection of a Shed for the protection of Malt Liquor in the Commissariat Granary adjoining.

3. The Commissariat Department has made the one arrangement conditional on the other.

4. Objection was taken by this Department to the erection of any new Buildings for storage purposes, until a Store Department was organized, and until it was ascertained whether there would be any necessity for additional accommodation under an improved storage system.

Order of Government, No. 3105, *dated* 28*th September* 1863.

5. This fact has not been ascertained, nor can it be until the allotments of Stores to be kept up, have been determined upon. Steps are in progress to fix these allotments, but it is only within the last two days that I have received the Proceedings of the Committee held by order of Government to determine those for the Medical Department, and they have not yet undergone the necessary scrutiny to enable me to report on them.

6. But, as the requirement for the Stamp Office is emergent, that part of the question may be disposed of irrespective of the conditions on which the transfer was agreed to by the Commissariat Department.

7. I have recently had repeated consultations with the Commissariat Officers on the subject, and have carefully examined the localities which are involved in the transfer, and the conclusion I have arrived at is that the Timber Yard may at once be handed over for the purpose required. It is now unoccupied, and I am not aware of any obstacle to the transfer taking place. The Department naturally wish to retain so suitable a site for the reception of articles arriving by sea; but its retention for Commissariat purposes is not, in my opinion, indispensably necessary.

8. Nor in my opinion is it necessary that any new Buildings should be erected to compensate for the loss of space caused by the transfer, provided certain arrangements are carried out to economise the existing storage accommodation. I have recently gone carefully over all the Buildings, and discussed the question freely with the Officers of the Department. As the bulk of the annual supply of Malt Liquor arrives within the first quarter of the Official year more accommodation is required *then*, than at any other period; but as the Stores at the up-country Stations, where the largest portion, of the supply is required, are at that period nearly empty, the pressure at the Presidency would be lessened by the speedy despatch of the supply to those Stations; against this arrangement it was urged that Survey Committees were required to be held, and that carriage could not be obtained except at a ruinous cost to the Contractor. I do not admit the force of either objection, although no doubt there is much truth in the latter; neither measure would appear to me to be beyond remedial arrangements: it was also pointed out that much space would be gained by "shaking up" the Water Casks, and the empty Arrack Pipes; but this was likewise objected to, as it was considered necessary to keep up a large supply of prepared Water Casks to meet emergent demands for Expeditionary Forces proceeding on service beyond seas: while in the case of Arrack Pipes it was alleged, that if they were not kept constantly filled, they absorbed a large quantity of liquor, when it was put into them in a dry state. I do not admit the validity of either objection: if the Casks were carefully shaken up, I believe they could be put together, and made fit for use, in a much shorter time than vessels could be collected for the purpose alleged.

Estimate accompanying Rupees 1,349, *forwarding letter from Barrack Master, No.* 1206, *of the* 15*th December* 1863.

Bangalore.
Bellary.

9. The Department is responsible for all its own arrangements, but my views on the subject are submitted for the consideration of Government.

10. It will be seen from the Commissary General's letter, No. 224, of the 3rd December 1863, that the Godown known as the Banksall contains about 1,400 water and dry Casks: the Cooperage contains, it will also be observed, about 160 empty Arrack Pipes; while at that period it is stated there were 1,000 Hhds. of Malt Liquor in the Timber-yard. The letter in question gives a fair idea of the nature and quantity of the articles stored; while the Statement prepared by the Barrack Master, herewith forwarded, shews the size of each Godown or Store-room; it will be observed that the Sheds or Buildings known as the Banksall, and in which the empty Water Casks are kept, contains 13,095 superficial feet, while the Timber-yard contains 21,457.

30th September 1863.

11. The documents above quoted, contain all that would seem to me necessary for the consideration of the two questions immediately involved—there are others such as the retention of the Cooperage on its present site which must be noticed separately and in a future communication.

12. I regret the delay that takes place in entering on questions of this nature, but the current work in this Office for some months past has been so heavy that it has been simply impracticable to take up and dispose of questions which require much inquiry and reflection; the pressure is sufficiently attested by the records of the Government.

13. The present dangerous site of the Commissariat Buildings is a general question which should be specially dealt with; they contain a large quantity of inflammable matter which if ignited, would cause great loss to the public as well as to private individuals. Government has lately determined to remove inland the Gun Powder and Gun Carriage Manufactories, and some of the grounds on which the determination was arrived at, are equally applicable to the Commissariat and others even more urgent.

Four or five lacs of gallons of Arrack.

From the Barrack Master, Presidency, Fort Saint George, 15th December 1863, *No.* 1206; *to the Controller of Military Finance, Fort Saint George.*

From recent correspondence on the Commissariat Storage, I am under the impression that no changes or additions should be made to or in the Buildings. I have the honor therefore to submit the accompanying Estimate for consideration, which I request may be returned to me with any suggestion you may desire to offer.

Order, No. 1975, *10th June* 1864.

Ordered that the foregoing Report from the Controller of Military Accounts, be communicated to the Public and Revenue Departments.

2. The general question of providing more suitable and safe accommodation for the Stores, &c., of the Commissariat Department, adverted to by the Controller, will be considered on receipt of the further communication promised in paragraph 11 of the above Report, which the Governor in Council desires may be prepared on the data now available; its submission being expedited as much as practicable.
