Proceedings of the Madras Government, Revenue Department, 14th July 1864.

No. 237. Read the following letter from Lieutenant-Colonel C. V. WILKIESON, R. E., for Superintending Engineer, 4th Division, to Colonel C. A. ORR, R. E., Secretary to Government, Public Works Department, dated Madras, 1st July 1864, No. 1,356 :—

SIR,

1. With reference to paragraph 7 of the Proceedings of Government No. 1,400, dated 13th May 1864, I have the honor to submit for sanction the accompanying Plans and Estimates prepared at the requisition of the Collector and approved of by him for the following works connected with the Salt Department at Cheyoor, viz :—

1 Estimate.
1 Plan of Cutcherry and Tower.
1 Sketch of Boat Channels and Platforms.

		Rs.
1.	Constructing Salt Platform	3,950
2.	Excavating Boat Channels	17,000
3.	Erecting Peishcar's Cutcherry	1,040
4.	Do. Watch Tower	210

2. Provision for the first two works has been made in the current year's Budget to the full extent for the Salt Platforms, and Rupees 10,000 for the Boat Channels, and the third and fourth works were included in the Supplemental Budget. The Government of India having, however, only allotted funds for the Military works entered therein, and the whole of the Reserve having been almost appropriated, I conclude that sanction can now only be obtained for the execution of the Estimates for the Platforms and Channels; but the Board of Revenue are anxious that the Cutcherry should also be built this year, and if funds cannot be granted by Government for the purpose, permission will perhaps be given for the execution of the work from the savings which may in the course of the next few months be effected on the allotments for other sanctioned works, I beg therefore to request that formal sanction be given to the whole of the Estimates with the understanding that those for the Cutcherry and Watch Tower are not to be commenced until it has been reported to Government from what source funds will be available for the work.

Referred to the Revenue Department.
