*Proceedings of the Madras Government, Revenue Department,
1st August 1864.*

No. 7. Read the following Proceedings of the Board of Revenue, dated 19th July 1864, No. 4,530.

Read the following Proceedings of the Madras Government, dated 14th July 1864, No. 1,233, Revenue Department:—

ABSTRACT.—Communicating a letter from the Government of India on the subject of the supply of Stamp paper from England, and requesting the Board to report what alterations should be made in the Plan and Estimate of the Stamp Office, which were approved by Government in their Order dated 9th January 1864, No. 48.

1. Ordered to be communicated to the Superintendent of Stamps for his opinion.

2. The effect of the proposal made by the Supreme Government, to the Home Government, will be that the paper when received from England will be already what is called in the Stamp Office "Single Stamp." The order of manufacture will be so far changed that the *value* Stamp will be imposed *after* the Departmental Stamp, instead of *before* it, as is now the case. The Board are disposed to think that this will be an improvement, *if* the value Stamp is decidedly difficult of imitation, and if the means of keeping the stock of "Single Stamp" paper are such as to guard against all risk of pilfering. The Board trust that this can be ensured; but as the stock of "Single Stamp" paper will be under the new system far larger than it now is, the difficulty will be greater than at present. This consideration makes the Board doubtful whether any reduction in the extent of the building for the Stamp Office will be feasible, although some re-arrangement of the internal space may probably be desirable. The extent of stamping to be done in the Stamp Office will be much less than at present, but still all private materials, may need to be stamped there for check, and space for a Stamping room should therefore be retained, so that on the whole the Board see no reason to think that any reduction of space can be recommended.

3. The Superintendent will please to consider the question of re-arrangement, and report his opinion after communication with the Officer of the Department Public Works in charge of the work.
