*Proceedings of the Madras Government, Revenue Department,
4th August 1864.*

No. 73. Read again letter from the Inám Commissioner, dated 30th January, No. 6, and recorded in Proceedings of Government, 9th February 1864, No. 246.

Read also the following Proceedings of the Board of Revenue, dated 12th May 1864, No. 2,860.

Read the following letter from the Collector of Nellore, dated Thotakatla, 8th April 1864, No. 85:—

1. With reference to Proceedings of Government in the Revenue Department noted No. 246 of 8th February 1864, marginally, received with the Board's Proceedings dated 13th idem, I have the honor to submit a Statement showing the area of the Nellore Polliem Shrotriem in Atmakur Talook, its assessment, the unoccupied waste, as also particulars of the Beriz of the village in the last five years.

2. From the Statement, it will be observed, that the arable area of the Government moiety of the village, as resumed, is Gortus 164 and V. 7, of which on the average of the last five years 49 Gortus, assessed at Rupees 174-6-1 were under occupation, and on 110 Gortus of waste Rupees 23 for Pullari, and Rupees 10 for a Kancha were collected, the total average receipts being thus Rupees 212-6-0.

3. With reference to the receipts from the Government moiety of the village having been reduced to so small an amount, I beg to observe that ever since its resumption, the Shrotriendars themselves have, I am informed, held it under Puttah, and sub-let the lands to under-tenants to whom they only paid the "Medipalu" or Ryot's share, and enjoyed themselves the rest of the produce. The Shrotriendars having been the only Puttahdars, and allowed to hold the whole Government share in the village, and the Ryots not realizing any further benefit besides what little they get from the Shrotriendars as their Medipalu, the waste lands in the Government moiety of the village have never been brought under cultivation.

4. It seems, moreover, that when the Government land was separated from the Shrotriem village the better portion of it was allowed to the Shrotriendars, whilst, I understand, the lands, as divided, were much intermixed, thus throwing the cultivation more under the hands of the Shrotriendars. The Statement shows an extent of Gortus 107 of dry land, and Gortus 2-14-12 of garden land which according to the Tahsildar's Estimate might be assessed at Rupees 348-10-7 at Rupees 3½ a Gortu the dry, and Rupees 36-4-1 the garden land.

*Proceedings of the Madras Government, Revenue Department,
4th August 1864.*

Submitted to Government, with reference to the Order quoted by the Collector. The portion of the village which reverted to Government, which the Inám Commissioner proposes to restore to the Shrotriendard on payment of the original Jodi on the whole village, consists apparently of Gortus 164-7, of which during the last five years Gortus 49 only have on the average been cultivated, while during the last year a sum of Rupees 38-10-0 was paid for the waste in the shape of Pullari and Kuncha rent. The Tahsildar estimates the assessment of this waste at Rupees 348-10-7, but under the circumstances reported by Mr. Dykes, the Board support the Inám Commissioner's suggestion, as it is unlikely that a fair return will be obtained for the Government lands of the village when intermingled as described with those of the Shrotriendard.

No. 74.

ORDER THEREON, 4th August 1864, No. 1,394.

Miscellaneous.

1. It is observed that the Government share of the village referred to comprises 513 Acres of culturable land, assessed in round numbers at Rupees 500, of which, on the average of the last five years, Acres 153 assessed at Rupees 170 were occupied, a further sum of Rupees 40 being paid for Pullari, &c. The Inámdars of the other portion of the village offer for this land Rupees 345, being the moiety of the original Jodi on the whole village, and the Board recommend the acceptance of this offer.

2. Under the circumstances brought to notice, the Government consent to the land in question being made over to the Inámdars, if they are willing to pay three-fourths of the full assessment, which will be about Rupees 375 under all circumstances, remissions being inadmissible. The Board will issue orders for giving effect to this arrangement.

Submitting with remarks letter from the Collector of Nellore forwarding Statement showing the area of the Nellore Pollam Shrotriend in Annakur Taluk, its assessment, the uncultivated waste and particulars of its bezir in the last 5 years.

The Government share of the villages comprises 513 acres of cultivable land assessed in round numbers at Rupees 500. of which in Fusly 1273, acres 153 assessed at Rupees 170 were occupied, a further sum of Rupees 40 being paid for Pullary, 1st. The Inamdars offer 345. I think they might under the circumstances get the land for 25% less than full assessment, which would be Rupees 375.
