Department:—

Furnishing copy of a report of the Consulting Engineer for }
Railways on the requirements of "Sal" timber in his } (Here enter 2nd May 1864, No. 267.)
Department.

No. 82. ORDER THEREON, 4th August 1864, No. 1,398.

Forests, No. 19.

Ordered to be communicated to the Acting Conservator of Forests
in continuation of the Proceedings of Government dated 14th July 1864,
No. 1,237.

(True Extract.)

(Signed) C. G. MASTER,
Deputy Secretary to Government.

To the Acting Conservator of Forests, with Proceedings Financial Railway Department, No. 267

Exd. S. T. Augustin.

*Proceedings of the Madras Government, Financial Railway
Department, 2nd May 1864.*

Read the following papers:—

No. 1. Proceedings of Government in the Revenue Department.

With reference to the report of the Acting Conservator of the result of his inspection of the Goamsur and Surada Forests in Ganjam, making a reference to this Department, with a view to ascertain how far the arrangement proposed by Captain Beddome is feasible, viz., that the Gun Carriage Manufactory, the Railways and Department of Public Works should engage to take a large quantity of Sal annually, the timber being delivered at Ganjam.

(Dated 11th March 1864, No. 429.)

Referred to the Consulting Engineer for Railways for report.

FORT SAINT GEORGE,
16th March 1864.

(Signed) W. H. KERR,
Deputy Secretary to Government.

No. 2. From Lieutenant Colonel P. P. L. O'CONNELL, R. E., Consulting Engineer for Railways; to A. J. ARBUTHNOT, Esq., Chief Secretary to Government, Fort Saint George, dated Madras 21st April 1864, No. 216.

Adverting to the docket on the Proceedings of Government in the Revenue Department,

* Dated 16th March 1864.

dated the 11th ultimo, No. 429, I have the honor to report that the Chief Engineer of the Madras Railway states that "Sal" timber is

not required for use in his Department. The Locomotive Superintendent has not had an opportunity of judging of the value of the wood for constructing rolling stock, but will be happy to test a few logs if they were supplied.

2. The Agent of the Great Southern of India Railway states that he requires 1780 Telegraph posts, 19½ feet long, each to be square cut, tapering from seven inches square at one end to five inches square at the other. If the Sal timber can be prepared for the purpose and delivered at Negapatam for about 2 Rupees a cubic foot, the Agent would be glad to send an order for their supply.

3. With reference to paragraph 2 of the Proceedings above adverted to, and to paragraph of Captain Beddome's Report, it will be seen that the Railway authorities are not prepared to take any of the Sal timber at Ganjam. If, however, a few logs could be brought to Madras and Negapatam, the Railway authorities would, I have no doubt, give the timber a trial in their workshops.

4. The timber principally used now is teak.

10. 3. ORDER THEREON, 2nd May 1864, No. 267.

Ordered that a copy of the Consulting Engineer's report be furnished to the Revenue Department, with reference to the Proceedings in that Department, dated 11th March last, No. 429.

(True Extract.)

To the Revenue Department

Edw. J. Tulloch

Deputy Secretary.
