Proceedings of the Madras Government, Revenue Department, 26th January 1864.

No. 275. Read the following Proceedings of the Board of Revenue, dated 12th January 1864:—

Read the following letter from P. GRANT, Esq, Collector of Coimbatore, to W. HUDLESTON, Esq., Secretary to the Board of Revenue, dated Coimbatore, 23rd December 1863, No. 234.

SIR,

I have received Proceedings of the Madras Government of the 19th instant, No. 2,341, and beg in reply to report that Mr. Rae has in several letters applied for an extension of his land, but as the boundaries and plans of his original grant of 240 Acres were incomplete, and as in fact the whole of the 240 Acres had not been made over to him, I did not see how I could entertain his application or bring it forward especially as little more than one-fourth of his original grant has been cultivated, and I am not aware that the experiment has in the estimation of Government proved successful; however if directed to make over additional land, I can do it speedily as I have visited the locality so often, that I am familiar with the interests involved.

Submitted for the information of Government with reference to their order quoted by the Collector.

No. 276. ORDER THEREON, 26th January 1864, No. 142.

1. The Government do not consider that Mr. Rae's experiment has reached that stage which would warrant him in expecting an extension of his grant, and they certainly decline, whatever the result of his experiment may be, to make such a grant as 1,500 Acres, or more than six times his original holding.

2. The Collector will report whether 200 Acres of grass land and 40 of forest are available in the neighbourhood of Sholoor, the forest of course being such as it is not desirable to reserve for public reasons.

(True Extract.)

(Signed) J. D. SIM,
Secretary to Government.

To the Board of Revenue.

Exd. S. T. Augustin.

For Consideration

No 142.

The pat. & Act Com.
Lieut that Mr Rae's
Experiments have reached
that stage which warrants
him in expecting an Ex.
tension of his patent &
the Govt will they certainly decline —
I have & therefore
I have at once done with
this matter

better say at once What

I think his experiments may be —
& make such a patent
as 1500 Acres — or nine
times his original
Int Rig —
