1. The Govt. sanction the proposed grant of compensation to take effect from the date on which the choka was made over to Mr. Frend.

For Orders.

The Contractor seems entitled to compensation & provided Major Renny's plan of fixing it, is the best - as it pretends a monopoly and meets other difficulties in the way of claims for loads made. The compensation should of course only be paid from the date of Mr Rendor receiving possession.

2. The sum realised by Mr McLean should be paid into the Colony Treasury as "Frend's" Rent

3 Mr McLean must act

I should be satisfied with the Forest Dept. any more — or do what is their work. — JPP

9 January 1864 No 47

It seems to me that Major Morgan should have taken steps to ascertain all the circumstances connected with the supply of Firewood before he called for Tenders. he has now made a contract which he calls upon the Govt to annul because circumstances have occurred which he completely anticipated at the time the contract was made. This is a shameful mode of doing work and it must not happen again. I support however that his proposal must be accepted
