Proceedings of the Madras Government, Revenue Department, 6th September 1864.

No. 79. Read the following Proceedings of the Board of Revenue, dated 17th August 1864, No. 5,275.

Read the following letter from A. HATHAWAY, Esq., Collector of Bellary, dated Camp Gooty, 22nd July 1864, No. 123:—

1. With reference to the Order of Government, No. 1,161 of the 5th instant, requesting me to submit a list of the prizes which I would propose for the purpose of the exhibition to be held in the Talooks during the ensuing settlement, communicated to me by the Board of Revenue on the 8th idem, I have the honor to enclose a Memorandum of the same for the sanction of Government; and to state that the aggregate amount, Rupees 1,174, may be met from the Budget provision of Rupees 3,000, made for the purpose for the year 1864-65.

2. As regards the extension of Plantations, a measure which if adopted freely would very much benefit the District, it is difficult to suggest a plan which would be adopted by the Ryots and at the same time be acceptable to Government.

3. Neither the tope rules nor the concession made by Government of a Village People's Park being formed free of assessment, as conveyed in the Board's Miscellaneous Circular, No. XIV, Board No. 1,071, of 18th February 1864, have produced a beneficial result. I shall however do my best during the ensuing Jummabundy to bring the matter to the favorable notice of the Ryots.

4. The Ryots in this District are not amenable to those influences, which in other countries induce the people to adopt measures conducive to the benefit of the community at large; and they prefer expending their capital on what promises a present return to themselves.

5. Were those Ryots, who planted Margosa trees (which grow readily and are remunerative), or other useful trees, along the borders of their fields, allowed a small reduction in the Rupee of their assessment, say for five years, the planting of such trees would at least increase the amount of moisture and would serve as excellent boundary marks.

6. Substantial rewards might also be offered to individuals forming a large plantation near a village, on land granted free of assessment, and keeping it up say for five years, when it would no longer require attention.

7. I do not however think that the rain fall in the vicinity of Bellary itself, is likely to be affected by any measure short of extending irrigation over a large area, whereby the vapor of the south-west monsoon may be condensed, instead of, as now, being carried over the District.

The

Proceedings of the Madras Government, Revenue Department, 6th September 1864.

1. Submitted for the sanction of Government. The Board would leave the Collector free to carry out his plan as proposed, but they greatly doubt whether the number or value of the prizes proposed in each Talook is sufficient to induce competition.

2. The Collector's suggestion that some special inducement should be held out to Ryots generally to mark their field boundaries by trees seems well deserving of consideration, though the Board fear that it is only capable of limited application, and to the least valuable class of land.

No. 80.

Miscellaneous.

ORDER THEREON, 6th September 1864, No. 1,620.

1. The Government share the doubts expressed in paragraph 1 of the Board's Proceedings, and request them to revise the list of the prizes in communication with the Collector. In some of the Talooks the prizes are so few and the articles selected of such a nature that it seem scarcely desirable to offer prizes at all.

2. The subject of paragraph 2 of the Board's Proceedings will be separately considered.
