My dear Mr. William

I got your letter a few
days ago and sent it on to
Abbott, who has charge of the
botanical garden, desiring
him to get as many seeds
of the sort you specify as
possible - He tells me that it
is too late to pick them and
that they could only be got
from Presnell -

Yours very truly

I have therefore bought from
Cronell seeds, which he says are
enough to secure a million
trees, and send them by the
Mail, which leaves this evening.
The bags will be enclosed in
one of the Mail boxes.
I hope these will be in time
for your planting season and
if you write again telling
me what you want I will supply
any quantity you may wish for
in time for next year.

My dear Sir William,

I have only time
to acknowledge your
note of the 11th and say
that I have put the
supply of seeds of
Tamar trees you require
in train, and will
write to you more
fully by next Packet.
Muller

Yours very truly

Müller says that the
seed of the Blue Gum
can be got more readily
& cheaply from Tasmania
and steps shall be
taken for that purpose
immediately -

I have given directions
that a copy of our last
Report upon Railways
be printed since I last
wrote shall be put
up to you by this
Mail

Mail - We shall be
complete to Echuca by
November - The Sydney
Government have put
into the line Custom Houses
on the Murray - as my
Minister would come to
no arrangement about the
Duties until the free
use of the River - that is
free from Toll is conceded

Believe me

Yours faithfully
