Proceedings of the Madras Government, Revenue Department, 14th March 1864.

No. 151. Read the following letter from Captain R. H. BEDDOME, Officiating Conservator of Forests, to J. D. SIM, Esq., Secretary to Government, Revenue Department, Fort Saint George, dated Camp Ootacamund, 3rd March 1864, No. 825 :—

SIR,

1. I have the honor to forward a Circular from Mr. Quaritch, Bookseller, Piccadilly, by which you will perceive that the whole of Dr. Wight's works on the Botany of our Presidency which were published at £44-2-6 may be had from his shop for £18-18-0.

2. A copy of the "Icones Plantarum" and of the "Illustrations" are both much required in my Office, (a copy of the former work only was lately advertised in Madras for Rupees 275), I therefore request that Government will sanction the purchase of the set for my Office, and that I may be allowed to write for them or that the Home Government be asked to forward them.

3. The cost can be met from the Budget sanction for contingent charges.

No. 152. ORDER THEREON, 14th March 1864, No. 438.

Sanction is accordingly granted for the purchase of one set of the works alluded to in this letter. Captain Beddome will make his own arrangements for procuring them from England.

Robert Wight's Publications on Indian Botany:

PUBLISHED BY THE AUTHOR HIMSELF AT GREAT EXPENSE IN MADRAS.

WIGHT.—ICONES PLANTARUM INDIÆ ORIENTALIS; or Figures of Indian Plants. By Dr. Robert Wight, F.L.S. Surgeon to the Madras Establishment, 6 vols. with the scarce GENERAL INDEX, royal 4to. *with* 2101 *plates, including all those given in the author's* "ILLUSTRATIONS" *and* "NEILGHERRY PLANTS," *but plain instead of coloured, cloth*, £27. 10*s* *Madras*, 1838-56.

"A most important work, with 2101 invaluable representations of Indian Plants."
H. CLEGHORN, *compiler of the General Index to Wight's Icones.*

"This is not the place to dwell on the extraordinary exertions in the cause of Science of the author of this great work, which is the best proof of his wonderful energy, and shows what can be accomplished by perseverance under apparently insurmountable obstacles. At the period of the publication of the earlier numbers, the art of Lithography was in a very rude state in India, and the Plates are consequently very imperfect; but in the latter volumes the improvement is great, and the outline Drawings are admirably reproduced. The Volumes form the most important contributions, not only to Botany, but to Natural Science, which have ever been published in India, and *they have been of the greatest service to us throughout our labours.*"

"It is admitted that Dr. Wight has accomplished a great work, which is as essential to the student of the Indian Flora, as Sowerby's English Botany is in Britain."
HOOKER AND THOMSON, *in the Introductory Essay to the Flora Indica.*
