*Proceedings of the Madras Government, Revenue Department,
12th April 1864.*

No. 192. Read the following Proceedings of the Board of Revenue, dated 22nd March 1864,
No. 1,748.

Read the following letter from the Acting Collector of the Godavery District, dated Ramachendrapur, 16th February 1864, No. 34:—

1. In reply to the Board's Proceedings No. 8,034, dated 18th December 1863, requesting me to afford the information required by Government regarding Mr. Gompertz's application for a compound to one of his houses at Rajahmundry, I have the honor to forward a sketch of the locality, showing the extent of land sought with "the position of the church, &c., neighbouring buildings."

2. The sketch is accompanied by a Plan given me by Mr. Gompertz, when he applied for the Puttah, which I thought I had forwarded with my former letter, but was inadvertently retained in my office. In this the size and shape of the land is indicated, and I have marked in red in the sketch the portion of the fort wall which is to be retained, and the boundary of which has been entered in the Plan.

3. I have myself examined the spot, and I think that the whole of the hill on which the house is situated, bounded on two sides by roads, and on the other by a plain, can be given to Mr. Gompertz. The house has at present no compound.

4. It would not be right to permit a stable or other out-house to be built so near the church, as would probably be the case if a portion of the plain on that side were granted. I would have written to the Church Committee on the subject in the first instance, but I thought that Dr. Murphy's letter, which Mr. Gompertz enclosed, was sufficient to show that the grant would in no way interfere with the compound of the new church.

ENCLOSURES Nos. 1 & 2.—Sketch and Plan:

1. Ordered to be submitted to Government, with reference to their Order dated 15th December 1863, No. 2,287, Revenue Department.

2. The Board do not see that any objection can exist to compliance with Mr. Morris's recommendation that the actual rampart as shown in the Plan be granted on permanent Puttah to Mr. Gompertz as the site of the house purchased by him from Mr. Purvis.

No. 193. ORDER THEREON, 12th April 1864, No. 612.

1. The Government are not prepared on the information given to grant the whole extent marked in the Plan with black ink.

2. As far as the Government can make out from the Sketch and Plan, Mr. Gompertz's Bungalow is built on the rampart of the old fort. The new church is bounded by the rampart on two sides; the rest of the rampart has been or is being removed. There is nothing to show why so much of the rampart as is marked on the Plan should be retained, considering how close it is to the church. It seems to the Government that the corner of the rampart on which the Bungalow stands to the extent of 200 feet each way is as much as should be granted, it being a condition of the grant that no stables or objectionable buildings be erected thereon at any future time.

3. The remainder of the rampart might apparently be removed with advantage, at all events it should not be parted with on account of its proximity to the church.
