*Proceedings of the Madras Government, Revenue Department,
19th April 1864.*

No. 303. Read the following Proceedings of the Board of Revenue, dated 7th April 1864,
No. 2,067.

Read the following Proceedings of the Madras Government, dated 23rd March 1864, No. 516,
Revenue Department.

ABSTRACT.—Referring to the Board for report an Order of the Public Works Department
on the subject of the retention of Negapatam as the principal station of Salt manufacture in the
Tanjore District.

1. The Board observe that the rate of Kudiwarum for Negapatam has already been raised
as a temporary measure. The *retention* of Negapatam as "the principal station of manufacture"
is not only not contemplated, but is not feasible. Negapatam is not, and the Board believe
never has been the principal place of manufacture in Tanjore. The Salt is inferior, its cost must,
as shown by Mr. Cadell, be great, and the capabilities of the station are very limited.

2. The Board have not the slightest hesitation in saying that Vedarniem must be the main
source of supply to the interior by rail, and they have no doubt that when the Canal is completed,
and the rate of Kudiwarum revised, the Salt from Vedarniem will be as much cheaper in cost at
Negapatam compared with the locally manufactured article, as it is vastly superior in quality.
But though this may be the case, it may still be expedient to extend the Negapatam works as
much as possible, and the Collector will be instructed to submit his proposals in detail for the
Board's consideration.

No. 304. ORDER THEREON, 19th April 1864, No. 665.

The Government will await the Collector's report.
