Not to be folded or roughly handled

*Proceedings of the Madras Government, Revenue Department,
6th June 1864.*

No. 55. Read the following letter from Lieutenant-Colonel O. W. S. CHAMBERS, R. E.,
Superintending Engineer, 1st Division, to Colonel C. A. ORR, R. E., Secretary to
Government, Department Public Works, dated Waltair, 14th May 1864, No. 127:—

SIR,

* No 213 of 20th January 1864.
ENCLOSURES.
1 Abstract Estimate.
1 Specification.
1 Plan.

1. With reference to Order* of Government as per
margin, I do myself the honor of forwarding an Estimate,
amounting to Rupees 5,750 for the construction of a
Tahsildar's Cutcherry and Treasury at Russelconda.

2. The building has been designed in communication with the local revenue authorities,
and approved of by the Collector; it may be considered unnecessarily expensive, but in an
exposed situation such as Russelconda is, in the vicinity of savage and semi-savage tribes, it is
just as well that Government should have a good substantial Cutcherry, surrounded by a good
wall, nine feet high.

3. The rates of the Estimate are very moderate, and its amounting to nearly 6,000 Rupees
is due entirely to the accommodation provided, being extensive, and to the building being pukka
throughout.

Referred to the Revenue Department, with reference to Judicial Proceedings No. 32, dated
11th January 1864.

Chepauk,
25th May 1864.

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government, P. W. D.

No. 56.

ORDER THEREON, 6th June 1864, No. 960.

Miscellaneous.

Approved. The compound wall of the building should be flanked,
as shown in the Plan.

(True Extract.)

(Signed) J. D. SIM,

Secretary to Government.

To the Public Works Department.
}, the Board of Revenue.

Exd. S. T. Augustin,

For others. This seems ne-
cessary but I should
think it would be better
to make the building de-
fensible by adding towers
at the corners than surround
it by a wall over which
a "Savage or Semi-Savage"
could easily climb.

The opinion of the local
authorities might be 
taken on this point, but
so as not to delay the prosecution of
the work - the building in such a locality
must clearly be made defensible
J.P.

W. 960.

Approved. The compound wall
of the building should be flanked,
as shown in the plans.
