Proceedings of the Madras Government, Revenue Department,
20th May 1865.

No. 375. Read the following Proceedings of the Board of Revenue, dated 18th May 1865.

Read the following letter from Colonel T. THOMPSON, Agent for Remounts, to R. A. DALYELL, Esq., Acting Secretary to the Board of Revenue, dated Madras, 18th May 1865:—

SIR,

1. I have had the honor to receive the Order of Government, No. 989, dated the 11th May 1865, and in reply, beg to inform you that I am anxious to be furnished with the steam plough as early as possible.

2. In making application for the plough as early as possible, I am greatly actuated by the impression that its ultimate success will be greatly influenced by the establishment being perfectly trained, before any public exhibition of its working should take place, and this I feel confident cannot be carried out *privately*, as it should be, at any place but the Dépôt.

3. From the circumstance of the Dépôt Farm being so far from any station, experiments of all kinds as to quantity, and nature of the fuel most economical, and suitable for the country, the amount of work that can be performed in a given time, the number and particular style of attendants absolutely required, can be practically carried out, without any of our failures, or mishaps becoming matter of public criticism, and when all are thoroughly acquainted with their duties, both practically and theoretically, then any public exhibition of the plough can be advantageously made.

4. I beg to recommend that along with the plough 10 tons of coal be forwarded to the Dépôt, as some will be required to assist the firewood, the engine not having been made expressly to burn the latter.

1. Submitted for the orders of Government:

2. The Board are of opinion that there is much force in Colonel Thompson's remarks in paragraphs 2 and 3.

* 5th May 1865, No. 2,281.

In their letter to Government* the Board recommended that the plough should be

tried either at Oosoor or Sydapett, in view to the first experiments being strictly private.

No. 376.

ORDER THEREON, 20th May 1865, No. 1,073.

Miscellaneous.

The Government approve of the proposal to send the steam plough at once to Oosoor, with the requisite supply of coal, in order that the working gang may be thoroughly trained before the plough is exhibited to the public in action.
