*Proceedings of the Madras Government, Revenue Department,
9th June 1865.*

No. 171. Read the following letter from W. DONALD, Esq., Chief Assistant Civil Paymaster in charge, to W. HUDLESTON, Esq., Acting Secretary to Government, Revenue Department, dated Fort Saint George, 17th May 1865, No. 16 :—

SIR,

1. I have the honor, with reference to Government Order, No. 1,015, dated 15th instant, to state that it rests with Government to decide whether the Orders of the Government of India, dated 4th September 1862, No. 369, Financial Department, can be extended to Government servants in other than the Public Works Department.

2. Should Government consider that the servants on the Malabar Escheat Establishment should be allowed to reckon their service for pension equally with those in the Revenue Survey Department, there appears to be no objections to its being done; but the confirmation of the Government of India, it appears to me, will be necessary both as respects this point and that adverted to in the foregoing paragraph.

No. 172. ORDER THEREON, 9th June 1865, No. 1,250.

Miscellaneous.

1. The Government see no reason whatever to doubt that service in the disposal of the Malabar Escheats must count towards pension as State service.

2. The proceeds of these Escheats are credited to Imperial Revenue. The disposal of them is a work of difficulty; a superior class of Officers has to be employed; and the best men are selected from other Departments. The Government do not see a single circumstance that should deprive these servants of the benefit of counting their service towards pension, except the fact that some time or other the work must come to an end.

3. To urge this objection is to offer a premium for dilatory discharge of the duty, and for attention to private rather than public interests in performing it; while the objection itself is equally applicable to many other Departments to which no one could for a moment desire to press it: e. g., the Surveys, Trigonometrical, Geological, Revenue, the Inam Commission, and all other similar special Departments, the importance of which is deducible from the fact that it is found necessary to organize a special Department for the work, instead of calling on the ordinary executive establishment to perform it.
