MADRAS RECORD OFFICE.

Government of Madras.

Revenue DEPARTMENT.

G.O. No. 1471 Press ~~Mis.~~

613-614

Dated 29-6-1865.

Not to be folded or roughly handled

No. 613. Read the following translation of a letter from His Excellency the Governor of Netherlands India, to His Excellency the Governor of Madras, dated Buitenzorg, 24th May 1865, No. 167 :—

YOUR EXCELLENCY,

1. I have the honor to acknowledge, your Excellency, the receipt of the three cases of Chinchona, and one of green dye plants, referred to in your Excellency's letter of 14th March 1865, No. 539, and I beg to offer you my sincerest thanks for the same.

2. Nevertheless I must regret the necessity of informing your Excellency that no more than 54 of the Condamenia, and but one of the Uritusinga plants reached this place alive.

3. The 50 Crespilla all died ; the green dye plants, however, arrived quite safe.

4. Six of the thick plate glasses of the cases had also broken.

5. Though those plants have been packed and stown with the greatest care, yet they seemed to have suffered very much from the voyage.

6. To the same circumstance I attribute that of the *Chinchona* plants, sent from here in September 1864, only *nine* reached *Madras* alive, for also these have been packed with great care.

7. As to the assertion of Mr. McIvor, that these plants were *C. Pahudiana*, I can only give your Excellency the assurance they are noted here for *Lancifolia* and *Lanceolata*.

8. When they are so young, it is however very difficult to distinguish the plants, especially when they have been exposed to the casualties and influences of a sea voyage.

9. Being in a good state this may be in less proportion the case with the *Lancifolia*, because this plant has a decided characteristic appearance; as to the *Lanceolata* Mr. McIvor may besides remember himself that these are not yet fully known here, and are supposed to be a variety of the *C. Pahudiana*.

10. In case your Excellency might be desirous for a small quantity more of that species, I shall make a pleasure of it to provide you again with same specimens.

No. 614. ORDER THEREON, 29th June 1865, No. 1,471.

Miscellaneous.

1. Communicated to the Superintendent of the Government Chinchona Plantations, who will report whether he wishes to obtain any more specimens of the variety of Chinchona noted in Batavia as C. Lanceolata and C. Lancifolia.

2. He will have two more cases of Chinchona plants prepared for transmission to Batavia, to supply the place of those which were lost on the former occasion.

(True Extract.)

(Signed) W. HUDLESTON,

Acting Secretary to Government.

To the Superintendent Government Chinchona Plantations, Ootacamund.

Exd. S. T. Augustin.

Rabinet
No 167

Pondicherry den 24 Mei 1765.

Ik heb de eer Uwe Edel. hierbij de rekening te berigten van de drie koffers met kruyd-planten en zaaden met Rhaconus, belandt in haar schepen van 14 maart 1765 No: 539 gemeld te Uwe Excellentie nogmaals te remitteren

Het doet my aenhalen Uwe Excellentie te melden onderdanigst dat sedert 54 Condiemente en 1 Urbasinga hier bij nog zyn aangekomen.

Ook 50 Caspella waren alle rond, de 24 Rhaconus planten daaronder in goeden staat.

Van de dubbe glazen waaronder de planten besloten waren, zyn er 5 gebroken aangekomen.

Alhoewel die planten met de meeste zorg waren opgepakt, schynen

Zyn

Aan
Hun Excellentie
den Gouverneur en Madras

dat zijn ook hier eene menigte
ongekende kruisplanten is en tot dus
een zeer belangrijk als eene
aanwinst van C. Pahudiana.

Hoogst blz. Excellentie vermeld
mij eene kleine bijdrage van die
plantsoorten willende aan verblaar
mij hierbij daarom gaarne te doen
geworden.
