CIVIL WORKS, No. 58.

1. Communicated to the Superintending Engineer of the 6th Division.

2. As respects paragraphs 4, 7, and 8, the Government observe that the current year's allotment for repairs to Communications in the Tanjore District is Rupees 65,775 in the Imperial, and Rupees 7,415 in the Local Funds Budgets, making in all Rupees 73,190. Of this amount Rupees 51,280 have been allotted for specific lines of communication, leaving a balance of Rupees 21,910 for other works. Captain Oakes will be requested to submit a statement showing the roads on which he proposes to expend this amount, distinguishing those mentioned by Mr. Clarke from other lines, and in the event of its being possible to effect a reduction in the maintenance grants specially provided, he will report the amount of savings which can be effected in each case, and the works to which he recommends its appropriation. The Government are unable to provide additional funds for any of the Tanjore Salt roads, but they consider that with care and attention much may be done towards their improvement with the existing allotment.
