tor Ramiyengar recommended a reduction of assessment. They are entered as Nos. 18 and 19 in the Tabular Statement appended to paragraph 31 of his report of the 8th June 1860, recorded in Board's Proceedings of the 17th June 1861, No. 3,138.

requested the sanction of Government for the same. No sanction has, however, been as yet received.

3. On reference to the Tabular Statement above alluded to, it will be seen, that it was proposed to reduce the assessment of the two villages in question to the average actual collections of twenty years' preceding Fusly 1269. Petitioner asks that the villages may be settled according to the average collections of the past thirteen years which, though lower in one case, and higher in the other, are on the whole very nearly equal to the average collections of the twenty years above mentioned. The assessment according to the Olungu average, as applied to the Paimash area, the average actual collections severally of twenty years preceding Fusly 1269, and of twenty years immediately preceding the current Fusly, as also the average collections of the past thirteen years, are shown below:—
