*Proceedings of the Madras Government, Revenue Department,
12th September 1865.*

Read the following letters:—

No. 258. From Captain R. H. BEDDOME, Officiating Conservator of Forests, to J. D. SIM, Esq., Secretary to Government, Revenue Department, Fort Saint George, dated Camp, Ootacamund, 11th May 1865, No. 1,280.

SIR,

1. In reply to the Government Order No. 932, of the 5th of May, I have the honor to inform you that I shall be glad to get a large supply of seed of the *Eucalyptus robusta* called Jarrà or Yarrà, as it yields a most valuable building timber. We are now well supplied with seed of firewood yielding trees.

2. I would suggest that the Australian Government be requested to forward any reports or authentic information on the quality of the timber of the different *Eucalypti* and *Acacias*.

No. 250. From W. G. McIVOR, Esq., Superintendent Government Chinchona Plantations, to W. HUDLESTON, Esq., Acting Secretary to Government, Revenue Department, Fort Saint George, dated Ootacamund, 28th August 1865, No. 67.

SIR,

With reference to the Official Memorandum No. 117, dated 19th August 1865, I have the honor to enclose a list of seeds of timber trees, and ornamental shrubs likely to be useful here. Among the trees I have included the two species of *Eucalypti* (*E. globulus* and *E. giganteus*) already so largely introduced, as from their adaptability to the climate of these hills, there is every probability of the cultivation of these valuable timber trees being largely taken up by private parties.

No. 260. ORDER THEREON, 12th September 1865, No. 2,185.

Miscellaneous.

1. With reference to Captain Beddome's letter above recorded, the Government observe that a supply of the Jarra seeds (*Eucalyptus robusta*) was recently received from Australia and distributed in G. O. 22nd July 1865, No. 1,707.

2. A requisition will be made to the Queensland Government for the seeds specified in the list submitted with Mr. McIvor's letter above recorded.
