*Proceedings of the Madras Government, Revenue Department,
26th September 1865.*

No. 526. Read the following Proceedings of the Board of Revenue, dated 19th September 1865, No. 5,814.

Read the following Proceedings of the Madras Government, dated 3rd June 1865, No. 1,210, Revenue Department:—

ABSTRACT.—Passing orders on a letter from Mr. Clarke, Member of the Board, reporting on the salt-weighing machines, and calling for the Board's views on the suggestion contained in the letter regarding the employment of Mechanics or Smiths, on the Establishment of each Salt Deputy Collector, to repair the machines when needed, &c.

1. The Board have already taken measures for the gradual introduction of the new weighing machines into all the salt-manufacturing Districts. They think it very desirable, that as each District is so supplied, a clever Smith should be added to the Salt Establishment of the District, as proposed by Mr. Clarke. The reductions of Establishment already made, in carrying out Mr. Clarke's proposals, will more than meet this additional charge.

2. The Board await the Mint Master's opinion on the suggestion made by Government in paragraph 5 of the Order.

3. A Circular will be despatched to all Collectors, directing them to have the weighing machines kept under cover.
