to the erection of the new rooms rather than the verandah, as there was very little difference in the amount of the two estimates, and as the new rooms would add much to the accommodation available in the building and would enable the Members and Secretaries to have rooms properly separated.

7. The Government approved of this proposal in their Order in the Revenue Department, dated 11th May 1865, No. 979, but in the Order of the same date, No. 1,235, in the Department of Public Works, it was stated that no funds were available for either work.

8. The Board have now had the experience of another hot season, and they are more than ever convinced, that the office accommodation, now allotted to the Members and Secretaries, is unsuitable in every respect. Though the ventilation has been considerably improved since the whole range of the gallery has been at the sole disposal of the Board, that quiet so essential to a properly constructed office is, of necessity, altogether wanting, and the heat, glare, and general discomfort is still excessive. The Board trust, therefore, that this application for the immediate grant of a small portion of the funds required for the erection of the new rooms, in order that they may be commenced as soon as the monsoon is over, may be complied with.

Transferred to the Department Public Works, for the allotment of funds if available.

Acting Secretary to Government.

ORDER THEREON, 13th October 1865, No. 3,042.

CIVIL WORKS, No. 40.

The Government consider that instead of erecting new rooms on the east side of the upper story of the building

occupied as an Office by the Board of Revenue, it would be advisable to construct a verandah on the south side of that building. An estimate for this work, amounting to Rupees 9,520, was sanctioned in Proceedings No. 965, dated 8th April last, but the Government are at present unable to allot the necessary funds for its execution. The Superintending Engineer will, however, be instructed to commence the work without delay, leaving the expenditure that may be incurred under these Orders to be hereafter adjusted by savings in existing allotments for the 4th Division, or by transfers from other Districts.
