*Proceedings of the Madras Government, Revenue Department,
8th February 1865.*

No. 170. Read the following Proceedings of the Board of Revenue, dated 16th January 1865, No. 226.

Read again letter from the Collector of Nellore, dated 23th October 1864, No. 349, in Board's Proceedings 5th November 1864, No. 7,243.

Read also the following letter from J. W. B. DYKES, Esq., Collector of Nellore, to W. HUD-LESTON, Esq., Secretary to the Board of Revenue, dated 20th December 1864, No. 399 :—

1. With reference to paragraph 2 of the Board's Proceedings, dated 5th ultimo, No. 7,243, I have the honor to state that the difference between the consolidated irrigation assessment and the water rate has been carried to the credit of Government.

2. The whole consolidated assessment was in the first instance collected, and the excess over 3 Rupees an acre, being paid over to the capitalists, and now credited to Government, Rupees 98-11-0 and Rupees 182-10-7, the balance representing the dry assessment, has remained from the first to the credit of Government. The total amount payable to the parties who restored the tank in question would be Rupees 1,741-0-11, as shewn below :—

	RS.	A.	P.
Total amount expended in repairing the tank... ..	1,628	7	1
Interest at twelve per cent. thereon.	349	12	3
Cost of planting trees and fencing	40	0	0
	2,018	3	4
Deduct payment already made with interest at twelve per cent. } as shewn in letter of 26th October	277	2	5
Balance to be paid	1,741	0	11

3. And as regards giving the Ryots twenty-five per cent. and the Board's remarks thereon, I would beg the Board to consider.

1st.—What is the rate money will command in the market as lent for trading operations.

2nd.—What is the interest those who borrow must obtain to cover risks.

Ordered that the above papers be submitted to Government with reference to Government Order, dated 15th September 1864, No. 1,698, R. D., and with the Board's recommendation that the Collector be authorized to pay Rupees 2,000 to the parties who repaired the Tank in full of all demands, the amount to be adjusted from the Department Public Works Budget provision if funds be available.

No. 171. ORDER THEREON, 8th February 1865, No. 262.

Miscellaneous.

Before sanctioning the payment of Rupees 2,000, solicited in the foregoing Proceedings, the Government resolve to call upon the Superintending Engineer of the 2nd Division, through the Department Public Works, to give his opinion upon the work which has been executed at the Alturti tank in the Nellore District.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 5th November 1864.

Read the following letter from J. W. B. DYKES, Esq., Collector of Nellore, to W. HUDLESTON, Esq., Secretary to the Board of Revenue, dated 26th October 1864, No. 349:—

1. I have the honor to acknowledge the receipt of the Board's Proceedings, dated 19th ultimo, giving cover to the Order of Government dated 15th idem, No. 1,698, for disbursing the amount laid out on the Alturti tank with interest, and annex a Memorandum showing the amount claimed by the parties concerned.

2. The outlay incurred is shown as Rupees 1,628-7-1, on which interest is claimed at the same rate as on trading operations, viz., 4 Annas in the Rupee, or twenty-five per cent. The interest thus calculated comes up to Rupees 728-10-10 up to the 20th instant, and should, in my opinion, be allowed, as, under any circumstances, there is a risk in money laid out on works of irrigation, and especially in this instance, where the tank is so difficult to manage that the Engineers would not undertake its repair.

3. A sum of Rupees 40 was expended in planting trees along the bank, and thus the total amount payable is Rupees 2,397-1-11. Deducting from this sum the amount already paid, viz., Rupees 261-5-8, and interest at twelve per cent., Rupees 15-12-9 up to the 20th instant, the net amount to be paid is Rupees 2,119-15-6, for the payment of which I request sanction at an early date.

4. I will request the Superintending Engineer to make the requisite arrangements for taking charge of the Alturti tank at once.

(Signed) J. W. B. DYKES, Collector.

1. The Board consider that twelve per cent. is the highest rate of interest that can reasonably be claimed by the parties who repaired the tank, and that there is no reason whatever for crediting Government in adjustment with a lower rate of interest than is proposed to be allowed to these parties.

2. But before applying to Government for sanction, the Board request the Collector to state whether the whole of the Government dues on the wet cultivation have been brought to demand, and whether the Superintending Engineer can provide funds to meet this charge, which would seem properly debitable to the Department Public Works. It would be also well to have some assurance that the alleged cost of the work is reasonable.
