Proceedings of the Madras Government, Judicial Department,

29th November 1865.

No. 233. Proceedings of Government, dated 29th November 1865, No. 1699.

It having been brought to the notice of Government that inconvenience occasionally results, during the absence of Collectors and Magistrates from their head quarter stations, from there being no European Officer of the Magistracy at hand to deal with emergent public business, the Governor in Council directs that, in future, every Collector and Magistrate will arrange to have a European Covenanted Officer at the head quarters of the District, whenever he may be himself absent from it, and in any instance in which such an arrangement may not be feasible, that he will report the circumstance to Government, and the arrangements he has made for the performance of public business at the head quarter station.

2. The attention of the Governor in Council has also been drawn to a practice which is followed by many public officers in the provinces, in their correspondence with Government, of omitting to specify, at the head of their letters, the name of the place from which they are written, and simply marking them "office of so and so." His Excellency the Governor in Council directs that, in future, every public officer will make it a rule to enter the name of the town or village from which his letters are written, at the head of each letter, and in those cases in which the writer is absent from the head quarters of the District, he will further specify the name of the Taluq in which he is residing.
