Financial Department Memorandum, No. 2,762, *dated 14th October* 1865.

With reference to Financial Resolution No. 2,761, dated this day, sanctioning the proposition made by the Public Works Department, that expenditure incurred in one Department on account of another Department shall be charged to the Budget grant of the former, the undersigned is desired to state that it is understood in the Financial Department that this rule will not materially affect the estimates of any Department, as transactions of unusual magnitude will be dealt with on their own merits, and not under the rule referred to.

RESOLUTION.—In issuing this order to the Public Works Department, His Excellency the Governor General in Council desires that it may be understood that this rule has been introduced as an extension of the principle now established in the public accounts that charges shall be charged against the estimates of the Department which incurs them, and to prevent the inconvenience of expenditure being incurred in this Department on account of another Department without Budget provision being made for it or without its being subjected to regular audit and supervision.

2. As expenditure of this kind is usually of only trifling amount, the rule will not materially affect the Budget estimates of any Department; transactions of unusual magnitude will be dealt with exceptionally on their own merits, and not under the rule now laid down.
