The Officer in charge of the South Canara Range was originally appointed in 1858 as an Overseer with a limited Establishment, and was subsequently promoted to the grade of Sub-Assistant Conservator. He has now three Overseers under him, and a fourth will be required for the Cundapoor Talook, where there is a large demand for timber. All the ghât forests of the District are now worked by the Department, and large plantations have been commenced. The charge has therefore become a most important one. The net Revenue of the Range in 1864-65 was Rupees 5,000, while a large stock of valuable timber was stored during the year.

Large demands for lumber at the high price of the timber at present and the difficulty to supply and large fluctuations have been experienced. The subject has therefore become a most important one. The net revenue of the State in 1865 was Rs 5,000, while a large stock of valuable timber was stored during the year.
