MILITARY DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following letter :—

From the Commissary General, Madras, 18th December 1865, No. 5477 ; to the Secretary to Government, Military Department, Fort Saint George.

I have the honor to report, for the information of Government, that considerable difficulty has been experienced in obtaining a suitable site for the Government bakery. No less than eight places have been examined, but to most of these, objections have been made on different grounds.

2. In selecting a site, the following essentials must be kept in view.

(a) The troops to be supplied are stationed in about equal numbers at the Fort and at St. Thomas' Mount, the spot selected should therefore be, if possible, equidistant from the two places. The bread must be delivered at the ration stands before 6 A. M. every morning in all weathers, and this could not be done if the bakery was situated at an inconvenient distance.

(b) The water must be good.

(c) The situation should, if possible, be such as will admit of its being constantly and regularly visited and inspected by the Commissariat Officer in charge.

3. Of the several sites, the most eligible are the following :—

First.—A spot of ground to the right of the Poonamallee road at the corner of the spur tank ; excellent water is obtainable here but the site is low and would have to be raised, and being private property, considerable expense and much delay would arise in securing this site.

Second.—Another site, which was looked at, was a portion of the plot of Government ground at the back of the Cooum, adjoining Marshall's road, and it was proposed to place the bakery in the extreme corner near the present Native huts. Although this spot is rather farther from the Mount than could be wished, yet it is in other respects suitable, and the water is good, but the Acting Commissioner of Police, who has charge of this ground, thinks "it is objectionable to encumber one of the few open plots of ground available for sports and recreation, in this large city with unsightly buildings." The buildings will not however be in any way unsightly or unsuited to such a locality.

Third.—The last site which has been proposed, is the plot of ground close to the Cenotaph which was formerly used as a bandy-stand ; this is very conveniently situated as regards the Fort and St. Thomas' Mount, being 4 miles from the former, and $4\frac{1}{2}$ from the latter place. Water is good and plentiful—I would therefore propose to erect the bakery in this spot, which is under the charge of the Collector of Madras, and should Government see no objections, request that they will direct the ground to be made over to the Commissariat Department for that purpose.

ORDER, No. 4739, 22nd December 1865.

The Governor in Council approves of the 3rd site* suggested in the foregoing communication from the Commissary General, as suitable for the erection of the

Bakery. Orders will accordingly be issued in the Public Works Department for the preparation of the necessary plan and estimate, in view to the immediate execution of the work, on the ground in question being made available for the purpose, on which point reference will be made to the Revenue Department for early orders.

rather further from the Mount than could be wished yet it is in other respects suitable and the water is good but the AG Commissioner of Police who has charge of this ground thinks "it is objectionable to sum up one of the few open plots of ground available for sports and recreation in this large city with unsightly buildings." The buildings will not however be in any way unsightly or unsuited to such a locality.

Third. The last site which has been proposed is the plot of ground close to the Courtgate which was formerly used as a candy stand; this is very conveniently situated as regards the Town and St. Thomas' Mount being 4 miles from the former and $4\frac{1}{2}$ from the latter place. Water is good and plentiful. I would therefore propose to let the bakery in this spot which is under the charge of the Collector of Madras and should Govt see no objections request that they will direct the ground to be made over to the Commissioner of the Department for that purpose.
