*Proceedings of the Madras Government, Revenue Department,
27th February 1865.*

No. 490. Read the following letter from R. A. DALYELL, Esq., Acting Secretary to the Board of Revenue, to J. D. SIM, Esq., Secretary to Government, Revenue Department, dated Madras, 17th February 1865 :—

SIR,

1. With reference to the Orders of Government noted in the margin, I am directed to submit the accompanying list of the agricultural implements received and distributed, as well as

3rd February 1865, No 207.

of those which are expected to arrive hereafter.

2. Since the date of the Board's last letter to Government, the Remount Agent has obtained several more of the implements.

3. The Board will, however, at once hand over to the Collector of Madras for exhibition, as proposed, a complete set of the implements, with the exception of the American plough, which has been taken by the Remount Agent.

4. It will be observed that there will then remain but few implements, and at this late period of the year the Board do not deem it advisable to make any further distribution of them. When the Superintendent of the Gun Carriage Manufactory has reported at what rates he can make up the ploughs it may perhaps be advisable to supply each Collector with a few for exhibition during the next cultivating season.

5. The articles received per "Tyburnia," including the steam plough, have not yet been forwarded to the Board, but the Inspector General of Ordnance has been requested to expedite their delivery.
