*Proceedings of the Madras Government, Revenue Department,
9th March 1865.*

No. 142. Read the following Proceedings of the Board of Revenue, dated 16th February 1865, No. 911.

Read the following letter from P. GRANT, Esq., Collector of Coimbatore, to W. HUDLESTON, Esq., Secretary to the Board of Revenue, dated Metupoliam, 30th January 1865, No. 13:—

In their Order of 28th February 1863, No. 439, Government sanctioned a temporary relaxation in the rules for the sale of waste lands on the Neilgherry Hills to such an extent as to allow of their sale previous to survey. Almost all the old applications have been disposed of in accordance with the mode of procedure prescribed in the above Order, and as Government have lately directed Colonel Priestley, the Superintendent of Revenue Survey, to depute the necessary staff of Surveyors for work on the Neilgherry Hills, the necessity for the relaxation will no longer exist. Under these circumstances, and as it appears to me that the continuance of the present system is likely to produce confusion, I have, under the orders conveyed in paragraph 2 of the Order, dated 28th February 1863, No. 439, put a stop to it in regard to all applications received from the beginning of this year, and issued a notice to the effect that no land will hereafter be advertised for sale, nor put up to auction before it is durably demarcated and surveyed. A copy of this notice is enclosed for the Board's information, and I request that it may be ordered to be published in the "Fort Saint George Gazette."

ENCLOSURE No. 1.—Notice.

Submitted for the information of Government. The Board presume that the Collector is satisfied that no serious inconvenience will be caused to the public by the course which he has adopted.

No. 143. ORDER THEREON, 9th March 1865, No. 517.

Land Revenue The Government cannot approve the course pursued until assured that means are available for the speedy demarcation and survey of lots. The Collector will state how many applications remain undisposed of at this date, and how many Surveyors are at work on the hills.
