18-3-1865.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Revenue Department,
15th March 1865.*

No. 221. Read the following Proceedings of the Board of Revenue, dated 23rd February 1865, No. 1,108.

Read again letter from the Collector of Tanjore, dated 24th August 1864, No. 289, in Board's Proceedings, dated 10th October 1864, No. 6,663.

Read also the following letter from the same Officer, dated 27th January 1865, No. 19:—

1. With reference to the Proceedings of the Board of Revenue, under date the 10th October 1864, No. 6,663, I have the honor to report that at a Meeting convened by the Acting Sub-Collector, Mr. Plumer, at Nagore, and which was numerously attended by the leading inhabitants of the place, both Mussulmen and Hindoos, it was unanimously agreed that the most advantageous way of employing the surplus of the Nagore Cess was the one already proposed, viz., the improvement of the river, and the construction of a small jetty near the Custom House.

2. I would, therefore, beg to suggest that the plan and estimate, sent with my letter of the 24th August last, may be sanctioned, and that a grant in furtherance of the proposed work be also made from Imperial or Local Funds, as the Government may deem fit.

1. Ordered that the foregoing letters, and their enclosures, be submitted for the consideration and orders of Government, with reference to their Orders, dated 23rd January 1863, No. 145.

2. As the chief inhabitants of the town have now expressed a wish that the surplus Cess Fund should be expended in the manner proposed by the Collector and Superintending Engineer, the Board recommend that sanction be granted to the plan and estimate for the improvement of the river opposite the Custom House at Nagore, and for the construction of a small jetty in the vicinity, amounting to Rupees 2,751, and that an equivalent contribution in aid from Imperial or from the District Local Fund be granted, if the cost of the works should be in excess of the amount estimated.

No. 222.

ORDER THEREON, 15th March 1865, No. 554.

Miscellaneous.

The proposed mode of employing the balance of the Fund in question is approved. The estimate seems to provide fully for the execution of the work, if not, the probable total outlay must be ascertained and reported.

No. 6,663.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 10th October 1864.

Read the following letter from W. M. CADELL, Esq., Collector of Tanjore, to W. HUDLESTON, Esq., Secretary to the Board of Revenue, dated 24th August 1864, No. 289:—

1. With reference to the Proceedings (No. 2,592) of the Board under date the 23rd April 1862, communicating those of the Madras Government, dated 17th April 1862, No. 859, I have the honor to state that, after due consideration, and on consultation with the Superintending Engineer, I have come to the conclusion that the best mode of applying the surplus of the Nagore cess (Rupees 2,751), would be the improvement of the river opposite the Customs House at Nagore, and the construction of a small jetty near to it.

2. The Town of Nagore is chiefly inhabited by Merchants and Traders, and it has been by them that almost the whole of the cess has been contributed. Under these circumstances, and as I also satisfied myself that this employment of the funds in question is acceptable to the people and further, as the work will greatly facilitate the import and export of goods, I venture to forward, for the sanction of Government, the accompanying plan, and estimate, prepared by the Superintending Engineer.

3. If however the Government are not prepared to sanction the execution of the above project, on the ground that the work is more of an imperial nature, I would beg to suggest that the money be expended in clearing and improving the tanks within the town, and also in providing a number of wells both for the supply of the inhabitants, and for furnishing the shipping frequenting the port, with good and wholesome water.

ENCLOSURES Nos. 1 & 2.—Plan and Estimate.

1. The Board consider that the Nagore traders who contributed the funds should themselves decide which of the proposed modes of expending the amount they would prefer.

2. The Collector will be good enough to ascertain and report their wishes on this point: an equivalent contribution in aid from the District Local Fund would be perfectly legitimate, if the estimated cost of the proposed work should be in excess of the amount of local contributions now available at Nagore.
