THE CIVIL PAYMASTER,

Fort Saint George.

THE SECRETARY TO GOVERNMENT

Madras
Public DEPARTMENT

I have the honor with reference to Government ^{Endowment} Order No. 1144 dated 28th instant 1864, to observe that the order of the Govt of India referred to appears to have reference to the Tentage of Civilians only as it says that this allowance is not to cease during absence on Privilege Leave provided the Tents of the absentees are placed at the disposal of the Locum Tenent -

2. It seems therefore very doubtful to me whether the Horse allowance of Police Inspectors & Forest Overseers is likewise to follow the same rule - I also do not find any mention made in the Supreme Govt Letter of House allowance to Civilians which was one of the allowances respecting which reference was made to Calcutta -

3. I therefore request that I may be favoured with orders as to whether I am to read the Supreme Govt Letter as having reference to every kind of allowance

I have the honor to be,

Sir,

Your most obedient Servant,

R. H. Odierch
Civil Paymaster.

Quarters -

*Proceedings of the Madras Government, Public Works Department,
20th March 1865.*

No. 430. Read the following Proceedings of the Board of Revenue, dated 21st February 1865:—
Read the following letter from W. M. CADELL, Esq., Collector of Tanjore, to R. A. DALYELL, Esq., Acting Secretary to the Board of Revenue, dated Tanjore, 17th February 1865, No. 50.

SIR,

To Board, 16th September 1864, No. 308.
From Board, 3rd November 1864.
To Board, 1st February 1865, No. 31.

1. With reference to the correspondence marginally noted, I deem it again to be my duty, and before the working season passes away, to bring to the notice of the Board, the

falling off of the land revenue in this District during the present Fasli.

2. The returns of cultivation up to the end of last month, in the Mayaveram and Shialli Taluqs, only show a falling off in the cultivation of 3,511 acres, thereby causing a loss of revenue of little short of 16,000 Rupees, and it must be remembered that the lands specified do not include lands cultivated, but the produce on which has withered and perished from drought, the remissions on which will necessarily amount to a very considerable sum, probably not less than 20,000 Rupees.

3. The Board will thus see that the representations which I have deemed it my duty to make for some years, regarding the gradually deterioratory state of the works of irrigation in this part of the District, have not been without foundation, and I would again beg very earnestly to urge that the present season should not be allowed again to pass away without something being done to improve the state of the irrigation under the Cauvery. I would take this opportunity also prominently to bring to notice, that the losses which are now of annual occurrence in the eastern Taluqs, watered by the Cauvery, are not caused by a deficiency in the volume of water entering that stream, but simply because while an undue proportion of water is drawn off by the Arasalar and other branches, the bed or channel of the Cauvery proper to the east of Combaconum has become so silted up that it cannot contain the quantity of water required for the irrigation under it; hence, in July last, no less than seven breaches occurred in this part of the Cauvery only, and I conceive that the same will occur again unless the bed is cleared and the embankments raised.

4. I therefore can come to no other conclusion but that the remedy for this is the clearing of the bed of the Cauvery in this part of its course, and I would, therefore, venture to ask that a sum of Rupees 10,000 should be at once placed at my disposal for this purpose, and for being carried out this season. - As I have already said the Mirasidars are prepared to contribute a further sum, but if work is to be done at all this season, the Board are aware that no time is to be lost. In making this recommendation, I do not venture to assume any professional knowledge, but I simply offer the result of what has been my own personal observation and experience in the 13 years I have been in Tanjore, and which observation is, I find, strengthened by the results of past experience and what has been done in preceding years, as shewn in the statement enclosed with my letter of the 1st instant. In point of fact, I conceive that the Cauvery at this stage is to be treated like a large channel, and which requires to be periodically cleared out.

5. I may also in conclusion take this opportunity to state, that in the Negapatam and Tiruterapundi Taluqs, there is also a falling off in the cultivation of upwards of 5,000 acres, and of nearly 16,000 Rupees of revenue, but besides this, the amount of remissions in these Taluqs must necessarily be very large. Doubtless these deficiencies are attributable in some measure to the adverse nature of the season, but at the same time they are also, and in a large degree, owing to causes which are capable of being remedied. I trust, therefore, the Board will give me their strongest and most powerful support in urging on the Government the paramount importance of doing something more than has been done for some years past, in keeping up our embankments, and in the timely clearing out of our works both of irrigation and drainage.

1. Submitted to Government in continuation of the Board's Proceedings, dated 9th February 1865, No. 762.

21st March 1865

Rev. Mr. Secretary to Govt.
No. 1138

*Proceedings of the Madras Government, Public Works Department,
20th March 1865.*

2. For the reasons now brought forward by the Collector as well as for those already adverted to in their former Proceedings, the Board would urge upon the Government the necessity of complying with the request made in paragraph 4 of Mr. Cadell's letter.

(A true Copy and Extract.)

(Signed) R. A. DALYELL,
Acting Secretary.

No. 431.

ORDER THEREON, 20th March 1865, No. 778.

1. The question which in the foregoing papers is once more brought under the notice of Government, appears to have been fully disposed of in Proceedings under date the 7th instant, No. 625.

2. The Government see no reason to change the opinion they have expressed of the impracticability of making any material impression upon the accumulations of sand in the bed of the Cauvery, below Combacorum, by the employment upon their removal of any amount of human labor, and as all the funds that are available can be well laid out, they must decline to sanction any being expended on an experiment.

Proceedings of the Madras Government, Marine Department,
22nd March 1865.

Read the following papers:—

No. 45. Proceedings of Government in the Revenue Department.

Referring, for sanction, the proposal to increase the pay of Captain Phipps, Master Attendant of Tuticorin, to the same standard as the Masters Attendant of Cochin and Cocanada. (Dated 2nd February 1865, No. 191).

Referred to the Superintendent of Marine, for his opinion.

(Signed) A. J. ARBUTHNOT,

Chief Secretary.

18th February 1865.

No. 46. From J. J. FRANKLIN, Esq., Superintendent of Marine, to the Honorable A. J. ARBUTHNOT, Chief Secretary to Government, Fort Saint George; dated Madras, 3rd March 1865, No. 741.

In returning the accompanying Proceedings of Government in the Revenue Department of the 2nd ultimo, No. 191, referred for my opinion on the 18th idem, on the question of raising the salary of the Master Attendant of Tuticorin, who now receives 200 Rupees a month, to that drawn by the Masters Attendant at Cochin and Cocanada, namely, 350 Rupees, I have the honor to state that, while fully appreciating Captain Phipps' qualifications as a public servant, I cannot consider that the post he holds as Master Attendant at Tuticorin is paid at 200 Rupees a month disproportionately to the similar appointments at Cochin and Cocanada, for which 350 Rupees are drawn.

2. The following is a Statement of the ships resorting to each port during the last official year 1863-64:—

	British and Foreign Ships.	Tonnage.	Native Craft.	Tonnage.
Coringa...	101	47,454	234	31,715
Cocanada.	243	76,976	1,605	44,940
Tuticorin.	38	22,451	487	21,991

3. Captain Phipps' labours, in prosecution of his duties as Conservator of Pearl Banks, appear to be not only very onerous but to require much skill, and at times unremitting attention; and, I think, he might be allowed a much higher salary than 150 Rupees on this account.

No. 47. ORDER THEREON, 22nd March 1865, No. 68.

The Governor in Council is not prepared to recommend an addition to Captain Phipps' salary as Master Attendant, which he considers is adequate, with reference to the amount of work devolving on him in that capacity.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 29th March 1865.

Read the following letter from T. A. N. CHASE, Esq., Sub-Collector in charge of the Godavery District, to R. A. DALYELL, Esq., Acting Secretary to the Board of Revenue, dated Narsapur, 16th March 1865, No. 40:—

1. I have the honor to acknowledge the receipt of Government Order, No. 15, dated 3rd instant, and in reply to inform you that the Sugar Mill is of English manufacture, and such could not be made at Dowlaishwaram.

2. It belonged formerly to Mr. Rundall, deceased, and was brought out with the intention of being worked by steam power, and was so worked for a short time, but the manufacture of Sugar was discontinued in consequence of its not paying.

3. The present owner worked it for a short time with bullocks, and subsequently on receiving a plan of a water wheel from Mr. J. W. Rundall, son of the former owner of the Mill, now works it with water power. A similar water wheel might be made by a carpenter, but for making the Sugar Mill itself, more mechanical ability would be required than can be looked for at Dowlaishwaram.

Submitted to Government with reference to the order quoted by the Sub-Collector in charge.

MILITARY DEPARTMENT.
PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following papers:—

Memorandum from the Deputy Quarter Master General, Fort Saint George, 23rd December 1864, No. 11777; to the Secretary to Government, Military Department.

Forwarded for the Orders of Government.

From the Officer Commanding Malabar and Cannara, Cannanore, 19th December 1864, No. 414; to the Quarter Master General, Head Quarters.

I have the honor to bring to the notice of His Excellency the Commander-in-Chief, for representation to Government, should His Excellency deem fit, that the Dāk Bungalow provided by Government at Calicut, for Officers of the service and their families, as well as others, is virtually unavailable to them (as constantly and loudly complained of to me, with regard to a place close to the Railway Terminus at Beypore, whereby so many travellers hence and hither travel in all directions by Steamer and Rail on duty and otherwise,) owing to the enormously extortionate charges made by the person who is allowed to occupy the travellers' Bungalow as an Hotel, whereby an Officer with his family is reduced to the alternative of either going without the use of the Dāk Bungalow intended for him by the State, or paying what he cannot possibly afford, and what is utterly unreasonable and extortionate; sums I have had stated to me, as so paid, being almost incredible.

2. I once communicated with the Collector of Malabar on this important public point, and hoped the evil would be remedied. But it is as much complained of as ever.

Referred to the Revenue Department.

5th January 1865.

Proceedings of the Madras Government,
Revenue Department.

Concurring with the Collector of Malabar that the convenience of the public will be better met by letting the Calicut Bungalow as an Hotel, and directing that it be rented to Mr. Gay, on certain conditions, to the end of April 1866.

Here enter 18th March 1865, No. 603.

ORDER, No. 1261, 1st April 1865.

Ordered that the foregoing Proceedings in the Revenue Department, be communicated to the Commander-in-Chief, with reference to the letter submitted with Quarter Master General's memorandum, above recorded.

1865*

Proceedings of the Madras Government, Public Works Department,
5th April 1865.

Read the following papers :—

No. 62. Proceedings of the Board Revenue, dated 21st February 1865, No. 1,048.
Read the following letter from W. M. CADELL, Esq., Collector of Tanjore, to R. A. DALYELL,
Esq., Acting Secretary to the Board of Revenue, dated Vellum, 9th February 1865, No. 39.

SIR,

With reference to Extract from the Proceedings of the Board, under date the 12th January last, I have the honor to forward copy of a letter to my address, received from the Assistant Engineer, Mr. Roberts, in charge of Range No. 4. I would beg to direct the special attention of the Board to the concluding part of Mr. Roberts's letter, and would also take leave to observe that experience has amply shown in this District, that the keeping open of a navigable communication, which receives in its course the whole drainage of the surrounding country, must always be attended with some difficulty and expense, and when these channels of discharge are admitted to be in a very unsatisfactory state, it seems to me very questionable whether this line of navigation under existing circumstances, and with the present limited amount of expenditure can at all be relied on for bringing in the Vedarniem salt to supplement the store at Negapatam.

ENCLOSURE No. 1.

From H. ROBERTS, Esq., Assistant Engineer, in charge of No. 4 Range, Tanjore, to W. M. CADELL, Esq., Collector of Tanjore, dated Karungunny, 3rd February 1865, No. 314 of 1864-65.

SIR,

1. Referring to your letter No. 11 of the 25th ultimo, I have the honor to enclose copy of my reply to a similar question put to me by the Superintending Engineer; I beg to state, in addition, that the junction canal has been excavated to the specified depth throughout nearly its whole length; the masonry works at its southern extremity, consisting of a bridge of 45 feet span, carrying the Tritrapoondy road (No. 26), an under tunnel passing the Chundrandy below the canal, together with two small under tunnels for irrigating channels still remains to be completed, and the necessary deviations of road and channels to be made. The foundations of these works (with the exception of the last named) have been brought up to the level of the sole of the canal, and I anticipate the completion of the whole before the close of this working season.

2. A head sluice, a small aqueduct, and two drainage culverts have also to be constructed, if my proposal recommending their abandonment be not accepted.

3. With regard to the closing portion of your letter, I have to explain that the purpose of the junction canal is to provide the connecting link between two existing water-courses, and thereby render the whole navigable, but it is evident to me, that some portions of their length will not be navigable *throughout the year*; that nothing was wanting to make them so on the 14th October 1862 is proved by the fact of Captain Mullins and Mr. Fraser having travelled over them on that date, and I have no doubt that in the rainy season lightly laden boats will be able to ply between Negapatam and Vedarniem; but as I have not yet examined the entire line of proposed communication, I am unable to say when it will be available for *general traffic throughout the year*. I would observe, however, that since Captain Mullins in his report to Government on the subject, estimated the total outlay required on the project at one lac of Rupees, of which only

	Rupees 35,565 have as yet been sanctioned,
Vedarniem canal..	Rs. 13,000
Junction canal ..	22,565
Total ..	35,565

there remains a considerable sum still to be spent, and a proportionate time will be required for doing so. I have more than once drawn attention to the unsatisfactory state of these old channels which have been silting up for years back, but other duties have prevented me from proposing, at the same time, measures for their improvement in detail.

(True Copy.)

*Proceedings of the Madras Government, Public Works Department,
5th April 1865.*

ENCLOSURE No. 2.

From H. ROBERTS, Esq., Assistant Engineer, D. P. W., to the Superintending Engineer, 6th Division, dated Negapatam, 21st January 1865, No. 297 of 1864-65.

SIR,

1. With reference to your endorsement No. 2,406, dated 20th January, on Government Order No. 145, dated 16th January 1865, I have the honor to report that provided the necessary funds be granted, the junction canal will probably be completed before the end of July next.

2. Funds to the extent just applied for, viz., Rupees 5,000 will, I think, be required for outlay in the current official year; there will then remain a balance on the sanctioned estimate (excluding Rupees 1,715-10-6 on account of compensation for lands) of about Rupees 4,000 to be worked out in the months of May and June.

(True Copy.)

(Signed) H. ROBERTS,
Assistant Engineer, D. P. W.

(True Copy.)

(Signed) W. M. CADELL, Collector.

1. Resolved that the above letter be submitted for the consideration of Government, through the Secretary in the Department Public Works.

2. The Board regret to receive such comparatively unfavorable report of the progress made in the Vedarniem Canal. Attention is solicited to the Assistant Engineer's remarks to which the Collector refers. It is clear that if the other portions of the line are not navigable, the completion of the canal will be of little use.

(True Copies and Extract.)

(Signed) R. A. DALYELL,
Acting Secretary.

No. 63. Proceedings of the Madras Government in the Revenue Department :—

(Here enter 30th March 1865, No. 699.)

No. 64. ORDER THEREON, 5th April 1865, No. 919.

CIVIL WORKS, No. 13.

1. The Government are surprised to observe that, in the papers now read, difficulties are stated to exist in making the Canal between Negapatam and Toputorai, and doubts are raised of the feasibility of keeping it open for navigation, as in all the reports that have hitherto been submitted the work has been spoken of as easy of execution, and as certain to be of the greatest value for the transport of Salt. Now this differently described, and Mr. Roberts* even goes so far as to state that the completion of the Canal

* In letter to Collector, dated 3rd February 1865, No. 314.

was originally estimated by Captain Mullins to cost a lac of Rupees.

2. The Government can find no record of this estimate, and they are unable to reconcile the statement with the tenor of all Captain Mullins' communications on the subject of the Canal. The papers will, therefore, be referred for the consideration and report of the Superintending Engineer, who will call upon Mr. Roberts to quote the date and number of the letter from Captain Mullins in which the cost of the project is given at the sum stated by him.

*Proceedings of the Madras Government, Public Works Department,
5th April 1865.*

3. The Superintending Engineer will arrange for visiting the work, and he will report fully on the points on which information is called for in paragraph 2 of the Proceedings of the Revenue Department recorded above. He will also furnish the required sketch of the line of water communication between Negapatam and Vedarniem, showing thereon the portions completed and remaining to be completed.

Office of Conservator of Forests
Madras 22nd April 1865.

N^o. 816

From,

H. Cleghorn Esquire M. P.
Conservator of Forests

To,

J. D. Sim Esquire
Secretary to Government
Revenue Department
Fort Saint George.

Sir. With reference to the Order of Government
29th July 1864, N^o. 1356 para 4, in which Captain Biddome
was directed to give an opinion as to the advisability
of acting upon General F. C. Cotton's suggestion of
employing the Chinese method of making small canals
on the cheapest possible scale for floating the timber
down to the main streams, I beg to state that Captain
Biddome has communicated with Captain Phillips,
Executive Engineer in Ganjam, who does not think
it would pay to open up cheap canals upon the
Chinese principle."

2. In the Sal Forests of Goomsin to which
the Right Honorable the Secretary of State's despatch
referred, there is in ordinary seasons sufficient water
in the hill streams to float the timber to Ganjam,
and Captain Phillips states, "that the cost of Cartage
in the district is moderate, seldom exceeding 1. 8^{rs} per
ton per mile"

in view the economical plan of water carriage is indicated by General Cotton, but the formation of canals expressly for timber floating would not pay, I fear, in any of our forests. The carriage of firewood by water from large jungles into towns answers very well indeed, and is adopted extensively upon the North and South Canals of Madras and along the ramifications of the Ganges, Barce Doab, and other Canals of Northern India.

4. General Cotton's paper was circulated to all officers of this Department who have been instructed to utilize the existing canals as much as possible; in some cases it may hereafter be advisable to form small cuts of the character indicated.

PROCEEDINGS OF THE BOARD OF REVENUE, Dated 20th April 1865.

Read the following letter from P. GRANT, Esq., Collector of Coimbatore, to R. A. DALYELL, Esq., Acting Secretary to the Board of Revenue, Coimbatore, dated 18th April 1865, No. 61.

Adverting to paragraph 2 of the Board's Proceedings of the 30th ultimo, No. 1,756, I have the honor to report that the land purchased by Mr. Money from the natives, was held by them on Puttah on payment of the prescribed assessment. It consisted partly of cultivated land, and partly of grass, as will be seen from the accompanying Memorandum.

ENCLOSURE No. 1.

Memorandum showing the extent, &c., of the land purchased by Mr. Money from Natives in Davasholay.

Puttah No.	Names of the Puttahdars.	Names of the Fields.	Extent of Miles land Bolls.	Assessment.	Assessment actually paid to Government.	Amount of purchase money paid by Mr. Money.	Remarks.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 22nd April 1865.

Read the following letter from J. I. MINCHIN, Esq., Collector of Kurnool, to R. A. DALYELL, Esq., Acting Secretary to the Board of Revenue, dated Sirwell, 18th March 1865, No. 33:—

1. With reference to the Government Order of the 8th instant, No. 505, on Mr. Monckton's application for certain land on the Nalla Malla Hills, I have the honor to report that no Diamond mines have been worked any where on those Hills since the assumption of the District by our Government.
2. During the time of the Nawabs of Kurnool, mines were worked on these Hills near Gazalapally, but I am not aware that such was ever the case on the particular site applied for by Mr. Monckton.
3. The Diamond mines now worked in Banganapally and the Ramallakotta Taluk are so unproductive as to render them quite unsuitable for European enterprise, and the amount realised by the yearly sale of those in Government territory is trifling.

Submitted for the information of Government, with reference to their Order, dated 8th March 1865. No. 505, Revenue Department.
