Dated	8-5-1865-

Not to be folded or roughly handled

*Proceedings of the Madras Government, Revenue Department,
8th May 1865.*

No. 122. Read the following Proceedings of the Board of Revenue, dated 22nd April 1865, No. 2,036.

Read the following letter from E. G. R. FANE, Esq., Collector of Madras, to R. A. DALYELL, Esq., Acting Secretary to the Board of Revenue, dated Pulicat, 21st March 1865, No. 67 :—

SIR,

With reference to the Order of Government, dated the 18th May 1864, No. 846, sanctioning a Survey Establishment for this District, I have the honor to state that lately in a few cases applicants for tracts of land for planting Casuarina trees have begged to be allowed to get a survey of the land made by themselves, as they state that the rate of four Annas per acre charged by Government is too heavy. I therefore beg the Board will be pleased to let me know, whether I may allow them to make their own surveys, or whether I should in every case have the lands surveyed by the Government Surveyor at the prescribed rate. It is to be observed that so many applications have been made within the last year for waste lands that it will take a long time for us to survey the whole.

Submitted for the Orders of Government. The Board see no objection to the Collector's proposal to allow applicants for waste lands for planting purposes to have a survey of the land made by others than the Government Surveyors, provided the competency of the person making the survey is beyond doubt and that he holds a certificate. Surveys made by such persons should be sworn to, and the landholders should be held responsible for any fraud that may be committed.

No. 123.

ORDER THEREON, 8th May 1865, No. 946.

Land Revenue.

The Government consider it preferable to strengthen the Survey Establishment, which should work under the supervision of the Superintendent Revenue Survey, the Collector taking care that permanent boundary marks are set and kept up.
