Proceedings of the Madras Government, Public Works Department.
23rd April 1866.

No. 471. Read the following letter from the Collector of Ganjam, to the Secretary to Government, Department Public Works, dated Chettépore, 5th April 1866, No. 463:—

1. Owing to the failure of tanks and streams along the line of the Trunk Road traffic is seriously impeded, and the resort of traders to the Salt works will shortly be suspended unless means are taken to provide water for man and beast.

2. As the Government have apparently not yet decided on sanctioning an attempt at artesian boring, and in order to meet present emergency, I have placed in the hands of the Salt Deputy Collector Rupees 500 to be spent by him in opening temporary wells or pits in certain spots which have been already selected, the Ryots of neighbouring villages will assist in these excavations, which will be sufficient for a short time to meet the present wants of travellers. If any of these pits are found to contain copious springs, I trust the means of rendering them permanent may be forthcoming after the 1st May.

3. The sum of Rupees 500 is a balance which I could not have spent before the 30th April, out of Rupees 1,004-1-3 remaining in my hands on account of Maliah road, and now in course of expenditure. I request that the sanction of Government may be obtained to the transfer.

4. Copy of this letter will be sent to the Superintending Engineer.

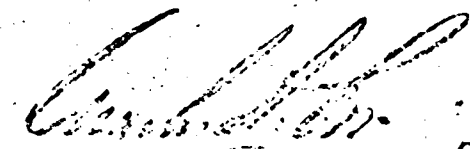

No. 472. ORDER THEREON, 23rd April 1866, No. 1,256.

CIVIL WORKS, No. 65.

Under the circumstances which are explained in the foregoing letter, the Government authorize an expenditure of Rupees 500 in opening temporary wells or pits along the line of Trunk Road No. VI. in the Ganjam District, funds for the purpose being obtained by a transfer from the allotment* for the Maliah roads, as recommended by the Collector.

* Rupees 2,500.—See G. O. No. 528, dated 13th February 1866.
