Proceedings of the Madras Government, Public Works Department.
24th April 1866.

No. 522. Read the following Proceedings of the Board of Revenue, dated 26th March 1866, No. 2,132 :—

Read the following letter from the Collector of the Kistna District, to the Secretary to the Board of Revenue, dated Gudiwada, 10th March 1866, No. 76.

1. Forwarded to the Board of Revenue, with the request that early sanction may be obtained. The swamp crossed by this embankment and bridge forms an almost impassable barrier during the wet weather to all traffic between Masulipatam and the Salt stores at Buntunilly.

2. The remainder of the road is sandy and bad ; but except at the spot indicated is no where impassable at any season. The embankment was much injured, and the bridge carried away at the time of the cyclone in 1864, and has never been restored.

From the Superintending Engineer, 2nd Division, to the Collector of the Kistna District, dated Masulipatam, 5th March 1866, No. 220.

I have the honor to forward an estimate for embanking the swamp of Munjular, and restoring and enlarging the existing bridge thereon, amounting to Rupees 3,520. This is the most impassable portion of the road from Masulipatam to Buntunilly, for the improvement of which Rupees 2,500 have been provided for in the current year's Local Fund Budget. It will be of little use to frame an estimate for the construction of a new road throughout the whole line at present, as it would amount to a large sum, as much as, or more, than that of the Ponnore and Sandole road, whose estimate the Government declined to sanction under the present limited nature of the Road Funds. As, however, the road would be rendered passable throughout, if the swamp above mentioned could be got over, (at present it is quite impassable during the rainy months,) I request you will be so good, after your approval and countersignature, as to submit the estimate for the sanction of Government through the Board of Revenue.
