*Proceedings of the Madras Government, Revenue Department,
31st May 1866.*

No. 526. Read the following Proceedings of the Board of Revenue, dated 25th May 1866.

Read the following :—

Statement shewing the state of the season in the District of Nellore up to 15th May 1866.

Rain fall.	State of the crops and the cultivation operations.	Prices whether high or low, rising, falling, or stationary.	Further remarks.
There has been no rain excepting 0.75 inches in Rapuru, 2.37 in Atmakuru, and 1.20 inches at Udayagiri Talook, from 1st to 15th May 1866. Some of the tanks in these Talooks have received a small supply of water, which is beneficial for cattle.	In the Rapuru Talook Casari and Tobacco are being harvested, and cultivation has commenced in some parts of Guduru and Atmakuru.	Prices are on the rise, large quantities of grains being purchased by Merchants from the Western Districts.	There is small-pox in Nellore, Kanigiri, and Kavali, and also the cattle disease in the first two of these Talooks. Cholera prevails in Vulluru, in the Venkatagiri Zemindary. Want of pasturage and water is felt chiefly in parts of the Talooks of Kavali, Udayagiri, Kandukuru, and Ongole. Deaths have been reported in Kandukuru and elsewhere, from sun stroke, and in Nellore itself there is a difficulty in obtaining water.

Nellore,
21st May 1866.
