Read again the following:—

No. 416. From the Superintending Engineer, 6th Division, dated 26th May, No. 145, and recorded in G. O. dated 6th June 1866, No. 1,790.

No. 417. Order thereon, 20th June 1866, No. 1,919.

ACCOUNT, No. 38.

1. With these letters, the Superintending Engineers submit the following Statements in pursuance of paragraph 18 of the Orders of Government on the Imperial Budget of Public Works for the current official year.

I. Of incomplete New Works for which no provision has been made in the Budget.

II. Of New Works both above and below Rupees 2,500 each, which have not been commenced, but which are recommended for execution from the Minor Works Grant of 1866-67.

III. Of transfers from Budget works for which funds in excess of actual requirements have been allotted.

2. On an examination of the two former of these Statements, it is observed that the Superintending Engineers' demands upon the Reserve amount in the aggregate to Rupees 10,27,447 distributed as follows:—

	Incomplete.	Below Rupees 2,500 not yet commenced.	Above Rupees 2,500 not yet commenced.	Total.
	Rs.	Rs.	Rs.	Rs.
Military Works...	89,158	17,145	69,810	1,76,413
Other Works	2,18,014	1,20,365	5,12,655	8,51,034
Total...	3,07,172	1,37,810	5,82,465	10,27,447

3. The Government regret that they are at present unable to assign a larger sum than Rupees 2,63,448 to incomplete works, and Rupees 1,36,684 to works which have not yet been commenced. Should funds, however, be hereafter available, they will be allotted for appropriation to such works of the latter class as may be most urgently required, or should the Superintending Engineers be able to provide money for those works by transfers from existing allotments, the Government will be prepared to give favorable consideration to any proposals which may be laid before them.

4. The Governor in Council resolves to sanction the following appropriations of funds to admit of the prosecution of works which remained incomplete on the 1st May last. Some of the Superintending Engineers have inadvertently entered in Statement No. 1, works upon which no outlay has yet been incurred. In all these cases, the items have been transferred to Statement No. 2.

7. The attention of the Superintending Engineers will be drawn to the following remarks.

8. The allotments for works in the past official year have not, in many cases, been entered with reference to the sums which remained to the credit of those works on the 30th April last, and unnecessary labor has thus been entailed upon the Government Office in the examination of the District Returns. The Government request that care may be taken by the Superintending Engineers to ensure complete accuracy in future Statements.

9. Ganjam.—The estimate for sinking wells and enlarging tanks at Berhampore not having yet been sanctioned, no funds have been provided for the work in these orders.

10. The estimate for the Church at Berhampore is Rupees 7,100,* and Rupees 5,079 having been spent up to 30th April 1866, the balance, viz., Rupees 2,021, has now been allotted.

* The Superintending Engineer enters Rupees 7,000

Vide G. O. No. 1,922, dated 8th July 1865.

Metalling and gravelling road from Aska to Berhampore.
Do. do. from Palcondah viâ Chinthada to Calingapatam.
Do. do. from Nowpadah viâ Bommally to the Palcondah road at Jagunnathapore.

See G. O. No. 1,677, dated 26th May 1866.

11. The works noted in the margin, not having yet received the formal sanction of Government, should have been excluded from the returns under review.

12. The grant of Rupees 5,000 now made for the extension of the village roads in the Mallahs increases the available funds to Rupees 10,000.

13. Kistna.—The Superintending Engineer will furnish further information regarding the demand of Rupees 219 on account of compensation for lands taken up for Public Works, and he will report whether, under the Orders of Government, No. 720, dated 23rd March 1863, the charge is one properly debitable to the Public Works Department.

14. Nellore.—The construction of the inland Salt store-yard at Iskapally will, under the Orders of Government, No. 913, dated 21st March 1866, be undertaken by the Revenue Department from funds to be provided out of the Civil Budget Estimates.

See paragraph 2 of Superintending Engineer's letter recorded in Revenue Proceedings No. 654, dated 15th March 1866.

15. The sum of Rupees 156 which is shown to be required for the completion of a Police Station at Nellore must be provided from the Budget allotment for Police Buildings in this Presidency. Colonel Winscom will accordingly communicate with the Inspector General of Police upon the subject.

Constructing a School-room for the use of the Horse and Foot Artillery.
Do. a building for 16 married men of E. Battery.
Do. a range of Non-Commissioned Officers do. do.
Building for Roman Catholic Place of Worship.
Building for the performance of Divine Worship at Ramandroog.

16. Bellary.—Although the sums applied for on account of the works noted in the margin are in excess of the sanctioned estimates, they have been allotted by Government, but the Superintending Engineer will expedite the submission of the comparative statement which is reported to be under preparation, and he will at the same time explain fully the causes which have led to the excess in each case.

17. The estimate for improving the drainage of the new European Barracks should be laid before Government without further delay.

18. Cuddapah.—The Superintending Engineer has omitted to enter the supplemental estimate of Rupees 550, which was sanctioned in G. O. No. 1,174, dated 16th April 1866, for the work noted in the margin, and it is not apparent, either from the returns under review, or from the Progress Report for April 1866, which is now before Government, whether the whole or any portion of that amount has been expended.

Bridges and tunnels on Trunk Road No. XI.

19. Kurnool.—G. O. No. 1,391, dated 22nd May 1865, is entered in support of the estimate of Rupees 420 for the formation of approaches to the bridge of the Irrigation Company at Jalapoor. The Superintending Engineer should have quoted the Order of the 19th November 1864. No. 3,326.

20. PRESIDENCY.—As the estimate for the Presidency Store and Workshop has been already exceeded, separate application should have been made for the additional funds which are stated to be required. The amount (Rupees 1,500) applied for has been allotted, but Captain Goddard will be requested to take measures for obtaining early sanction to the excess outlay.

21. The estimated cost of the upper rooms to the Revenue Board Office at Chepauk is entered at Rupees 10,700.

No. 3,184, dated 2nd November 1863.

On reference to the Order quoted in the margin, the Government observe that the amount sanctioned was only Rupees 10,460. The necessary alteration has been made in the Government Office, and the unexpended balance of the estimate has been provided.

22. An assignment of Rupees 10,000 has been made for carrying out the sanctioned alterations to the Commissariat Arrack and Porter Depôt, in anticipation of the submission of the revised estimate which was called for in the Order of the 19th April 1866, No. 1,218, and which the Government hope to receive at an early date.

New Salt channels at Voyaloor.
Extending No. 4 Salt channel at Attiput.
Excavating Salt channel at do.
Extending do. at Valloor.
Deepening and widening the Salt channel at Pooladivakam.

23. MADRAS.—Pending the receipt of orders from the Revenue Department, no funds have been provided for the works noted in the margin.

24. The estimated cost of the Guindy Water Supply Project is entered at Rupees 13,931, instead of Rupees 17,986.

See G. O. No. 3,426, 30th November 1864.

Captain Goddard will report whether he expects to complete the work within the sanctioned amount.

25. The Superintending Engineer has omitted to provide the sum of Rupees 1,910 which was sanctioned for the Madranticum Táluq Cutcherry in the Order of the 17th May 1866, No. 1,580. The omission has been supplied in the Government Office.

26. The remark in paragraph 15 applies equally to the Police Stations and Huts in the Madras District, for which the Superintending Engineer applies for a grant of Rupees 5,163.

27. NORTH ARCOT.—The estimate for the Dispensary at Chittoor amounts to Rupees 7,400, of which Rupees 3,700 having been contributed by the inhabitants, the balance of the estimate has been allotted in these orders. Rupees 3,200 having been expended from private contributions up to 30th April last, the amount which is available for expenditure in the current year, inclusive of the grant now made, is Rupees 4,200.

28. Pending the completion of the enquiry which is being instituted for the purpose of ascertaining whether the number of District Moonsiffs' Courts cannot be reduced, no funds have been allotted for the improvement of the District Moonsiff's Court at Palmanair.

	Rs.
Constructing an additional Record room to the Táluq Cutcherry at Moosery	500
Do. a 2nd Class Sub-Magistrate's Office and Police Station at Toricor	2,300
Do. do. at Rajandrapatam	2,300
Do. a new Privy for the Hospital of the 23rd Regt., L. I., at Trichinopoly	2,200
Do. an Association-room and Workhouse for the Battery of Artillery at Trichinopoly	1,850
Raising the walls and putting up ridge ventilators to the roof of the Surgery Office and Artillery Hospital Sergeant's quarters in the European Hospital	1,100

29. TRICHINOPOLY.—The estimates for the works noted in the margin have not yet been laid before Government.

30. The estimated cost of the additions to the Printing Press-room in the Collector's Cutcherry is entered at Rupees 1,610, instead of Rupees 1,600 which is the amount sanctioned in G. O. No. 1,595, dated 17th May 1866.

31. TANJORE.—No funds will be provided for the District Moonsiff's Court-house at Mayaveram till the receipt of orders from the Judicial Department on the estimate which was referred to that Department for consideration on the 28th April 1866.

32. The Superintending Engineer states that the estimate for altering the old Civil Court-house at Combaconum, to adapt it for a Táluq Cutcherry, has not yet been sanctioned. Captain Oakes' attention will be drawn to the Order of the 19th November 1864, No. 3,323, wherein an estimate for this work, amounting to Rupees 1,480, received the approval of Government.

33. COIMBATORE.—The estimate for the Civil Hospital at Ootacamund is entered by the Superintending Engineer at Rupees 20,550. Of this amount Rupees 12,000, which is the Government grant-in-aid, has been allotted in these Proceedings. It is observed that Rupees 3,050 were expended upon the building from private contributions during the past official year.

34. The Superintending Engineer must provide the sum of Rupees 900, which is required to complete the "Storm repairs of Coonoor Ghât," from his *Repair* allotment.

35. The estimated cost of the Coonoor Ghât Bungalow is given at Rupees 4,950. The amount* of the reduced estimate, which† was submitted with the Superintending Engineer's letter No. 204, dated 24th October 1863, should have been entered.

* Rupees 4,100.

† See G. O. No. 3,353, dated 18th November 1863.

36. In the absence of the revised estimate now under preparation, the grant from Imperial Funds on account of the Chuttrum at Erode will be restricted to Rupees 3,100, which is the amount promised in the Order of the 8th March 1866, No. 783.

37. MALABAR.—Under the explanation afforded in the Superintending Engineer's letter recorded in the Order of the 9th April 1866, the estimate for the Post Office at Vythery will stand at Rupees 4,420, and Rupees 4,401 have been provided in these orders for the completion of the building.

38. In support of the estimate for the Kallay bridge, G. O. No. 1,997, dated 14th July 1865, is quoted. The correct order is that noted in the margin.

G. O. No. 3,139, dated 1st November 1864.

39. Rupees 2,283 are shown to be required for the completion of certain bridges in the Town of Cochin, the estimate for which was sanctioned in G. O. No. 3,369, dated 24th November 1866. As the sum of Rupees 3,667 which was expended on the work up to 30th April last was *lent* from the *District Road Fund*, it is necessary that the full amount of the estimate, viz., Rupees 5,950, should now be placed at the Superintending Engineer's disposal from the Imperial grant.

40. Rupees 2,970 are applied for on account of the purchase of the site for the Jail at Cannanore, but as the Superintending Engineer reported in his letter recorded in the Order of the 21st March 1866, No. 910, that the Cherrakal Rajah declined to accept his share, which amounted to Rupees 998, it is necessary to provide only Rupees 1,972.

41. Malabar and South Canara.—The remark in paragraph 28 applies to the District Moonsiffs' Courts at Palghaut and Cassergode, for which Rupees 700 and 1,730 respectively are applied for by the Superintending Engineer.

42. South Canara.—The estimate for the work noted in the margin‡ does not appear to have yet been sanctioned by Government.

‡ Minor bridges below Charmaudy Ghât, Rupees 7,140.

43. Tinnevelly.—G. O. No. 3,184, dated 4th November 1864, is quoted in support of the estimate of Rupees 11,300 for the Umbasamoodrum Táluq Cutcherry. The correct Order is No. 2, dated 4th January 1865.

44. The undermentioned transfers of funds under the sub-heads of the Minor Works grant are sanctioned:—

	Rs.		Rs.
From "Agricultural"	65,000	To "Civil Buildings" ...	65,000
Do. "Miscellaneous" Public Improvement:	25,000	Do. do. ...	25,000

45. The appropriations which have been sanctioned in these Proceedings under all heads of the Reserve are noted in the following Statement:—

District.	Military.	Civil Buildings.	Agricultural.	Communications.	Miscellaneous Public Improvement.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
