No. 11. Read the following letter from the Director of Botanical Garden, Melbourne, to His Excellency the Governor of Madras, &c., &c., &c., dated Melbourne, 24th May 1866:—

I have the honor of forwarding to your Lordship, by this month's P. and O. Mail Steamer, a package of seeds of such rapidly growing trees, indigenous to this country, as are in constant demand for sheltering plantations in the Chinchona regions. In following up these transmissions, I act in the sense of your illustrious predecessor, Sir William Denison. I have added the seeds of the New Zealand Pittosporum Eugeniaides, our noblest hedge plant. Since the Chinchona plants have come into maturation of seeds in India, ready means exists for effecting the extensive introduction of these useful trees into other dominions of Her Majesty, means of which I had the advantage of availing myself already to a limited extent. I should feel grateful if your Lordship would cause any surplus of seeds available, or a share of such, to be transmitted to the Institution under my control.

No. 12. ORDER THEREON, 3rd July 1866, No. 1,616.

1. I have the honor to acknowledge the receipt of the Board's Proceedings, dated 23th ultimo, No. 3,007, and state that the terms on which I propose to allow the old Travellers' Bungalow at Gudurn to be occupied by the school, are till the School Commissioners can build a premises for themselves, the Government, of course, not being called on in the meanwhile for repairs, which must be met from the School Funds.

I have written to the Superintendent of Police to inquire, and will submit his reply, for the information of the Board, as soon as received.
