No. 51. Read the following letter from the Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Waltair, 14th June 1866, No. 46 :—

1. The deep bed of the Vashista Godavery encroaches on its right bank, at the bend where the important town of Nursapore is situated, this encroachment was of so dangerous a character during the freshes of last year, that it was found necessary to construct groynes to keep the river in its proper course, and to protect the town from further damage.

2. The groynes were accordingly put in hand by my order in April last, and are now approaching completion, funds for the work were appropriated from the grant for Agricultural Repairs; but the grant for the current year under this head is not adequate to meet exceptional charges of this description. I have therefore the honor to apply for a grant of Rupees 1,600* from the Reserve to meet the estimated expenditure in the current year on these new groynes.

	Rs.
* Estimate	2,600
Expended in 1865-66	1,000
Estimated expenditure in 1866-67 ...	1,600

No. 52. ORDER THEREON, 3rd July 1866, No. 2,088.

CIVIL WORKS, No. 10.

The sum of Rupees 1,600 which is applied for in the letter above recorded will be placed at the disposal of the Superintending Engineer of the 1st Division from the Budget grant of Rs. 16,000 for "Repairs to the Cocanada Harbour."—See page 40 of printed Budget. In a separate letter, Captain Ryves has reported that Rupees 12,000 will be sufficient to meet the current year's expenditure on this work.
