*Proceedings of the Madras Government, Revenue Department,
31st August 1866.*

No. 850. Read the following Proceedings of the Board of Revenue, dated 24th August 1866, No. 6,067.

Read the following paper from the Collector of Bellary, to the Secretary to the Board of Revenue, dated 17th August 1866; forwarded with reference to letter, No. 4,850, dated 14th July 1866, from the Acting Secretary to the Board of Revenue:—

Statement shewing the quantity of food-grains supposed to be available in the District of Bellary for the consumption of the population.

No.	Names of Talooks where kept.	Total quantity of food-grains of all descriptions.		For how long available to supply the local demand.			Remarks.
		Garce of 4,800 Seers.	Seers.	Years.	Months	Days.	
1	Bellary	1,297	...	...	1	28	These are the Tahsildars' returns; it is impossible to say what reliance can be placed on them. The price of grain is the best if not the only index of the quantity stored, and likely to be replenished. Money would not buy grain if there was only two days' supply. There is no doubt the supply is far below the demand, and prices will rise still higher, unless a change of season soon occurs.

1. Submitted to Government.
2. The Board attach no value to this return except as indicating what is beyond doubt the case, viz., that the supply of grain in the District is terribly inadequate to meet the wants of the resident population.
