121. 122.

Dated 6-9-1866.

Not to be folded or roughly handled

Proceedings of the Madras Government, Revenue Department, 6th September 1866.

No. 121. Read the following Proceedings of the Board of Revenue, dated 23rd August 1866, No. 5,999.

Read again letter from the Collector of Bellary, dated 20th June 1866, recorded in Board's Proceedings of 9th July 1866, No. 4,662.

Read also the following letter from the Superintending Engineer, 3rd Division, to the Secretary to the Board of Revenue, dated Bellary, 27th July 1866, No. 1,140 :—

1. With reference to the Board's Proceedings, No. 4,662, dated 9th instant, I have the honor to inform you that I yesterday inspected the Collector's Cutcherry in company with the Collector himself, and that we are of opinion that a pandal would not answer for the window on the west side, as it would interfere with the drive up to the steps leading to the upper rooms of the Cutcherry. The room is occupied by the Serishtadar, and has only one window to admit light with batten shutters : when closed the room is quite dark, and when opened is exposed to wind and rain and the afternoon sun. It was the opinion of the Collector and myself that it would be better to move the batten shutters outside, and put other shutters inside of partly glass and partly venetians.*

* The probable cost would be Rupees 32.

2. For the room on the east side we thought there was no necessity to do anything. The windows need only be opened to air the room, which is used for holding stationery, and the time for opening can easily be chosen.

Ordered that the foregoing letters be submitted for the orders of Government, with reference to Government Order, dated 9th June 1866, No. 1,399, and with the Board's recommendation that sanction be granted for putting up the proposed shutters to the room in the Collector's Cutcherry occupied by his Serishtadar at an estimated cost of Rupees 32.

No. 122. ORDER THEREON, 6th September 1866, No. 2,369.

Miscellaneous.

Approved.

No. 4,662.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 9th July 1866.

Read the following letter from W. S. FOSTER, Esq., Acting Sub-Collector, in charge of Bellary, to the Acting Secretary to the Board of Revenue, dated 20th June 1866, No. 125:—

1. With reference to the Proceedings of Government, Revenue Department, and Order thereon, No. 1,399, of the 9th June, I have the the honor to report that the two weather-boards were required for two rooms in the Collector's Cutcherry; these rooms have no verandah outside; the weather-boards were, therefore, required as a protection both against the sun and rain. Blinds would not suit both purposes, as if they were thick enough to keep out the rain effectually, they would also effectually darken the room when put down to keep off the sun.

Board's Proceedings, 16th June 1866.

2. It seems, however, to me that weather-boards would not thoroughly keep off the sun and rain, unless they extended a long way down the window, and this would have the effect of making the room too dark, and I would, therefore, suggest that "pandals" should be put up in front of each of the windows: these would not make the room so dark, and would be sufficient protection from both sun and rain. This would cost about 40 Rupees to make: this may be met from the total savings of this District.

The Superintending Engineer's opinion will be requested on the Acting Sub-Collector's proposal.

(A true Copy and Extract.)

(Signed) R. A. DALYELL,
Acting Secretary.

To the Superintending Engineer, Third Division.

Copy to the Acting Sub-Collector in charge of Bellary.
