*Proceedings of the Madras Government, Revenue Department,
29th January 1866.*

No. 500. Read the following Proceedings of the Board of Revenue, dated 15th January 1866, No. 322.

Read the following letter from the Collector of Nellore, to the Secretary to the Board of Revenue, dated 28th December 1865, No. 14 :—

1. I have the honor to request that the Board will be pleased to obtain the sanction of Government for an addition being made to the Establishment entertained for the settlement of this District as follows :—

Five Classifiers, at Rupees 25 each	125
Three Peons for the Special Assistant, at Rupees 7 each...	21

146

2. The total cost of the Establishment would thus be increased from Rupees 2,077 per mensem, as sanctioned in the Government Order quoted, to Rupees 2,223.

3. And, a few words will set forth, with clearness enough, the grounds on which I make this application.

4. In the first place, as regards classifiers, the supervision provided can, I find, undertake now the management of twenty-five classifiers. In the second place, as I stated in my last Progress Report, we shall be in two months taking up Nellore, and required, if possible, so to arrange matters as to classify the wet area between crops. In the third place, the increase in the Establishment, requisite to enable us to meet local requirements, will be economy as regards supervision; and fourthly, by the proposed increase, and consequent increase of speed, we shall be more likely to come up to the views of Government as to the work to be done in a year, and more likely to secure uniformity of results, than if operations are scattered over a long period of time.

5. The additional Peons are required for the Special Assistant, whose duties in the field I find require this additional assistance, which will be more specially necessary when work is going on in two Talooks.

6. And in expressing my hope that the request now made will have the Board's support, I beg to state that our present rate of working may be said to average 100 acres per diem, and I hope to raise the rate where the soils are not very troubled, as in the Nellore Talook.

Submitted for the sanction of Government.
