Proceedings of the Madras Government, Revenue Department,
11th October 1866.

No. 268. Read the following Proceedings of the Board of Revenue, dated 8th October 1866.

Read the following :—

No. 208.

Special Season Report for the fortnight ending on the 30th September 1866.

1. There were showers in parts of the Trichinopoly Talook. In some villages of the Museri and Perambalur Talooks the rain-fall during the fortnight was two inches, while in others it was very inconsiderable. In some parts of the Kullitalai and Wodiarpoliem Talooks, the rain-fall varied from one-eighth of an inch to three inches. Some of the tanks have been well supplied with water.

2. The freshes continued to flow in the Cauvery and Coleroon, and the irrigation channels, except the Weyacondam, had a good supply of water, but matters have lately improved owing to the recent showers.

3. Car and samba paddy in the Neerarambum, cholum, raggy, and varagoo in the Codarambum, and Nunjah grains in the garden lands are being cultivated. Cooroovah paddy in the irrigated parts, and raggy and cumboo in the garden land[illegible]rict, are being harvested.

[illegible]ion of the Museri and Perambalur Talooks, cholera, fever, and dysentery prevail to some extent. There were no cases reported of death from want of food. The relief-houses in the town of Trichinopoly have greatly assisted the poor, but in the Kullitalai and Wodiarpoliem Talooks there is distress, and measures are being taken to alleviate it.

5. Pasture from the effects of the late rains is improving.

6. Prices continued stationary.

7. Cotton in the Museri Talook, and both indigo and cotton in the Perambalur and Wodiarpoliem Talooks were cultivated to a small extent.
