Read the following letter from the Acting Collector of Kurnool, to the Secretary to the Board of Revenue, dated 17th September 1866, No. 190 :—

1. I have the honor to state, for the information of the Board of Revenue, that the Deputy Collector in charge of the Peapully Division reports that a new form of the cattle disease has broken out in the Koilgoontla Talook.

2. The disease commences by a swelling on the throat which extends to the chest. The animal refuses food, appears to suffer considerably, and dies in about two days after being attacked. All the cattle which have been thus attacked are said to have died, but the Deputy Collector has not mentioned how many heads have fallen victims to the disease, which the Ryots say is quite new to them. He has been requested to furnish further information on the subject.

Communicated to Mr. Thacker, to whom the Acting Collector should furnish the fullest information in detail that he can procure on the subject.
