*Proceedings of the Madras Government, Revenue Department,
3rd February 1866.*

No. 42. Read the following letter from the Officer in charge of the Office of Cotton Commissioner Dharwar, to the Secretary to Her Majesty's Government, Madras, dated Dharwar, 19th January 1866, No. 80:—

1. In reply to your letter No. 88, dated 11th instant, I have the honor to state that the Cotton seed I shall have to distribute for next season's sowing will, so far as regards exotic varieties, be supplied to me by the agency of the Manchester Cotton Supply Association; that body will supply seed to me at cost price, and I shall only add *actual* expenses incurred; the rates for each kind I am unable to give until the seed arrives. As soon as practicable I will do myself the honor of submitting a list of prices.

2. I may add that to promote and encourage Cotton cultivation the rates will be kept as low as possible.

3. I shall be happy to supply Dharwar acclimatized New Orleans and Dharwar indigenous Cotton seed *at Dharwar* at Rupees (2) two per Maund of 28 lbs. This rate includes picking and packing. Actual cost of carriage *only* to destination will be added to these rates.

4. I can deliver at Carwar (where the steamers touch) these two varieties at Rupees 2-4-0 per Maund. At first sight it may be wondered why indigenous seed is the same price as "Acclimatized New Orleans," the reason is that there is a great demand for the former variety as food for cattle, whilst the latter is but seldom used for that purpose.
