*Proceedings of the Madras Government, Public Works Department,
29th January 1866.*

No. 698. Read the following letter from the Superintending Engineer, 2nd Division, to the Secretary to Government, Department Public Works, dated Nellore, 9th January 1866, No. 134 :—

1 Detailed Estimate.
1 Abstract do.
1 Specification Report.
1 Board's Proceedings.
1 Plan.

With reference to paragraph 3 of G. O. No. 1,676, dated 16th June 1865, I have the honor to forward a plan and estimate amounting to Rupees 2,760, for constructing a road dam between Argol-

loo and Poottagoonta, together with the Proceedings* of the Board of Revenue, dated 8th December 1865, No. 7,846, relating to this work, and request that you will be good enough to obtain the sanction of Government for the same. The amount of this estimate was entered in my Budget for the ensuing year.

Proceedings of the Board of Revenue, dated 8th December 1865, No. 7,846.

Read the following letter from the Acting Collector of the Kistna District, to the Acting Secretary to the Board of Revenue, dated Masulipatam, 28th October 1865, No. 211.

I have the honor to forward, herewith, copy of a letter from the Superintending Engineer, 2nd Division, together with an estimate, amounting to Rupees 2,760, for the construction of a road dam between Argolloo and Poottagoonta, and request you will be good enough to obtain sanction of Government for the work in question.

From the Superintending Engineer, 2nd Division, to the Acting Collector of the Kistna District, dated Masulipatam, 13th October 1865, No. 125.

1. Referring to paragraph 3 of Government Order, No. 1,676, of 16th June 1865, Public

1 Plan.
1 Detailed Estimate.
1 Abstract do.
1 Specification Report.

Works Department, I have the honor to forward a plan and estimate for constructing a road dam on the Argolloo and Gudivada road between Argolloo and Poottagoonta, amounting to Rupees 2,760. This work is required to pass off the

drainage of the country, which spreads over a large surface during the rains, and for the discharge of which there is no defined channel, but which accumulates near Argolloo, where the road dam is proposed on account of the spread of the water. A dam is considered preferable to a bridge, and it, when finished, will nearly complete the masonry works necessary between Bantumilly and Perikeed, a most important Salt road leading to the Bantumilly Kotaur from the interior. The earthwork needed between Perikeed and Argolloo (about three miles) still remains to be done. An estimate for the work in question was prepared in 1863 for Rupees 2,820, and approved of by the then Acting Collector, Mr. Foord; but, owing to the slight alteration in the design since made, it is now reduced to Rupees 2,760. I request you will be so good as to submit the same to Government for sanction after affixing your counter-signature thereon, in token of your approval.

2. Funds will be applied for in the ensuing year's Budget now under preparation.

4. The other estimates called for by Government in the Government Order above quoted, will be forwarded shortly.

The Board observe, that the estimate submitted with the foregoing letter refers to a work which was included in the Salt Budget of 1865-66. The plan and estimate have the Board's approval, but they should be submitted for the sanction of Government by the Superintending Engineer. The estimate and plan will accordingly be returned to the Collector.

Proceedings of the Madras Government, Public Works Department.

29th January 1866.

No. 699.

ORDER THEREON, 29th January 1866, No. 332.

CIVIL WORKS, No. 109.

The Governor in Council approves of the plan, and estimate amounting to Rupees 2,760, which are submitted with

the foregoing letter for the construction of a road dam on the Argolloo and Gudivada road, between Argolloo and Poottagoonta in the Kistna District, but as no funds are at present available, and no provision can be made for the work in the out-going Budget, its execution must be deferred until after the 1st May next, unless the Superintending Engineer of the 2nd Division can supply the requisite funds from his existing allotment.
