No. 622. Read the following letter from the Superintending Engineer, 6th Division, to the Secretary to Government, Department Public Works, dated Tanjore, 18th October 1866, No. 870:—

1. I have the honor to report that, owing to heavy rain in the valley of the Iyaur, the banks of that river have been breached, and the bridge on the Trichinopoly and Salem road has been carried away, with the exception of the western arch. It is believed that some of the large tanks in the valley of the Iyaur have been breached, and the floods are stated to be unprecedentedly high in consequence. Mr. Lawford does not, however, mention the depth of water over the north branch of the upper anicut.

2. With the oblique scour along this work, it must be undergoing a very severe trial, but there are so far no indications of its having been damaged.

3. The breaches in the bank of the Iyaur must have flooded the Lalgudi Táluq, and done considerable damage.

No. 623. ORDER THEREON, 26th October 1866, No. 3,420.

CIVIL WORKS, No. 118.

The Government will await the receipt of a further and more detailed report regarding the disasters which are referred to in this letter. Full information should be furnished of the several points mentioned in the Orders of Government noted in the margin.
